About Chip Mong Commercial Bank Plc.

As part of Chip Mong's successful footprint since

1982

Chip Mong Commercial Bank Plc. is a Cambodian bank established with a strong commitment to bring the Cambodian people a solution of financial services and products that are perfectly designed, innovative and better suited to their needs in Cambodia. Chip Mong Commercial Bank Plc. shows the fastest growth within five years, gaining the trust of customers and helping all customers to grow financially.

Since its establishment in 2019, Chip Mong Bank has been providing a personalized banking experience with a comprehensive understanding of your industry, market, and business' needs. Chip Mong Bank offers a wide range of services tailored to daily finances and businesses of all sizes, including savings, term deposits, loans, mobile banking, agency services, internet banking, and more, enhancing the convenience of managing finances for all customers.

As of 2023, Chip Mong Bank has reached an asset milestone of **USD 1.3 billion**, with loan volumes increasing to **USD 712 million** and deposits rising to **USD 1 billion**. Our expansion has resulted in the establishment of **15 branches** across Phnom Penh and key provinces, including Siem Reap, Battambang, and Kampong Cham. As proof of its achievements, Chip Mong Bank received several accolades. In 2020, the Chip Mong Bank App won the "Most Innovative Mobile Banking App" award from Global Finance, due to its innovative design and functionality. The following year, the bank was named the "Best New Digital Bank in Cambodia" for 2021. Most recently, in 2023, it received the Leadership Award in Debit Activation Rate from Visa, a significant achievement given that the bank had only launched its debit cards a year prior. This series of awards highlights the rapid growth and customer trust in Chip Mong Bank. Additionally, we have diversified our digital offerings to better serve the growing user base of the Chip Mong Bank App. In addition to enhancing transaction convenience through SWIFT and Ria money transfer services, we support international dealings via our Nostro account and have introduced Visa card products to facilitate seamless financial transactions both locally and abroad.

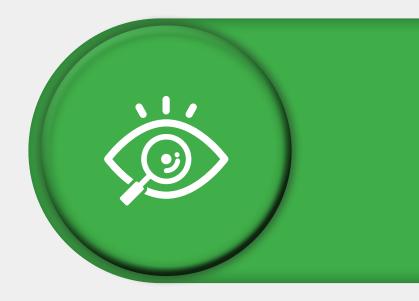

Chip Mong Bank's network achievements include:

- 1. Mobile Subscribers: 62.18 thousand users
- 2. Branch Network: 15 branches
- 3. Agent Network: 23 agents

Fairfield

4. Merchant Partners: 7,500 merchants

VISION

As part of Chip Mong's **SUCCESSFUL FOOTPRINTS SINCE 1982**, at Chip Mong Bank we aim to be the **MOST TRUSTED BANK** in the country with innovative solutions through **TECHNOLOGY ADVANCEMENT**, **FAST SERVICES**, and **CLOSE TO OUR** retail and business customers.

MISSION

- 1. Offering a **ONE-STOP** service and customized solutions.
- 2. Delivering FAST AND EXCELLENT services and systems.
- 3. Partnering for MUTUALLY PROFITABLE and sustainable business.
- 4. Expanding the business into THE LARGEST ECO-SYSTEM.
- 5. Embracing employees **GROWTH AND DEVELOPMENT.**
- 6. Adhering to long-term, compliant, and SOUND RISK MANAGEMENT practices.

CORE VALUES

- 1. Commitment to **EXCELLENCE** and **DISCIPLINE**
- 2. MAKING A DIFFERENCE through our ECO-SYSTEM
- 3. COLLABORATION and INTEGRITY
- 4. Being **RESILIENT** and **AGILE**

NEAK OKNHA LEANG MENG

CHAIRMAN OF CHIP MONG COMMERCIAL BANK PLC

On behalf of the Board of Directors and as a shareholder of Chip Mong Bank, I would like to extend my heartfelt congratulations on the remarkable achievements of 2023, a year that tested our resilience and determination in the face of unprecedented challenges. I wish to express my gratitude to the management team and dedicated staff members whose high commitment has been instrumental in propelling Chip Mong Bank towards success.

In 2023, despite facing external pressures and challenges, the Cambodian economy experienced sluggish growth, largely due to global uncertainties. During these challenges, Chip Mong Bank has remained resilient, achieving a significant milestone with the opening of a new branch in mid-2023. This expansion brings the total to 15 branches across Phnom Penh and other provinces in the country. Additionally, we have launched a wide range of banking products to meet the growing needs of Chip Mong Bank customers. Our services now include SWIFT and Ria money transfers, catering to the needs of customers sending and receiving money from overseas in the most convenient and quick manner. Chip Mong Bank's Nostro account also enables customers to conduct financial transactions with business partners globally. We have introduced Visa Debit and Credit card products, catering to the preferences of customers who travel and make financial transactions both locally and abroad. As a key player in the banking sector, we have played an important role in promoting the sustainability of the Cambodian economy.

We have consistently pursued clear and adaptable strategies tailored to market dynamics and customer needs. Our leaders and colleagues across all levels have demonstrated strong commitment, proactive and positive mindset, turning challenges into opportunities, and rallying towards common objectives.

As we anticipate the year 2024, we foresee positive economic growth, promising prospects for both our business and our nation. Nevertheless, we remain vigilant and committed to continuous improvement for our competitiveness in the market. We persistently pursue success by expanding our brand reach, striving for further product enhancement and development, and cultivating trust among customers. Central to our efforts is the deliberate enhancement of customer satisfaction through strong relationships and commitments of our bank to the customers; while at the same time, offering a beneficial loan and deposit products that are suited to their business and their personal finance.

"Your Trusted Financial Partner"

Chip Mong Bank strives to be the country's most trusted bank, placing the utmost importance on customer satisfaction. We prioritize understanding our customers' needs and delivering tailored financial solutions to address their challenges. Our focus is on enhancing customer trust and fostering strong relationships. This is facilitated by our efforts to expand branches strategically, provide swift services, and innovate with flexible financial solutions driven by advanced technology. Through partnerships with public, private, and international entities, we offer global banking experience and diverse payment options. Investing in cutting-edge technology ensures our digital systems meet world-class standards.

While banks may share similar resources, systems, and policies, their outcomes vary due to factors like human resources, leadership, and strong organizational culture. At Chip Mong Bank, we recruit and develop talented individuals who possess the qualities of capability, energy, integrity, and experience, empowering us to progress rapidly towards our goals.

"Chip Mong DNA: A Legacy of Success"

Just within our 5 years of operations, we have accomplished many excellent achievements because Chip Mong Bank has Chip Mong as a parent company, with strong capital and deep roots in the Cambodian market for more than 40 years. We also have shareholders who have long-term strategies and visions to develop this Cambodian-invested bank to become a leading local bank and be able to stand on the market for hundreds of years and more.

As the co-founder of Chip Mong, I can guarantee our steadfast commitment to strategic growth and continual achievement. Each year, we are dedicated to surpassing previous milestones and realizing new levels of success.

Finally, I extend my profound gratitude to our loyal customers, shareholders, and employees who have placed their trust in Chip Mong Bank since our inception. It is our sincere hope to nurture and strengthen our relationships further, working collaboratively towards achieving significant milestones for the advancement of the financial sector in Cambodia.

Sincerely Yours,

Neak Oknha LEANG Meng Chairman of Chip Mong Commercial Bank Plc.

JOHN CHARLES BELL

PRESIDENT OF CHIP MONG COMMERCIAL BANK PLC.

Dear readers,

As we close another chapter and step forward, I am privileged to share insights into the journey of Chip Mong Commercial Bank Plc. over the past year, a period marked by strategic growth, strengthened resilience, and a steadfast commitment to empower financial futures.

In 2023, the global economic landscape presented multifaceted challenges, influenced by geopolitical tensions and ongoing adjustments in global markets. Despite these conditions, Chip Mong Bank not only navigated these complexities with agility but also captured new opportunities for growth and innovation. At Chip Mong Bank, we solidified our foundation by strategically investing in our people, processes, technology, and product offerings.

Our achievement

This year, we achieved substantial growth in our operational metrics, with our total assets increasing to over USD 1.3 billion, our loan portfolio growing to USD 712 million, and customer deposits reaching USD 1 billion. We expanded our physical network to enhance customer accessibility, adding branches and ATMs throughout Cambodia, totaling 15 branches, 42 ATMs/CRMs, 23 agents, and partnerships with 7,500 merchants. This expansion supports over 62.18 thousand mobile app users and enriches our customer banking experience.

We launched several strategic initiatives that enhanced our service offerings. Notably, we put out a new card product, which are the Gold and Platinum Visa Credit Cards and introduced a more flexible and innovation savings options, Chip Mong Bank Top-up Term Deposit Account.

Our digital transformation journey also saw significant advancements with new features in our Chip Mong Bank App, such as the Instant Account service and enhancements to our Chip Mong QR and SWIFT International Transfer services, ensuring comprehensive digital banking solutions.

Our promotional strategies were tailored to diverse customer segments, with special promotions and deals for all types of customers using any of our products and services – featuring instant gifts, trip packages, and valuable shopping vouchers. Additionally, we conducted up to 90 on-ground booth activations across strategic and crowded locations, including the capital city and other provinces countrywide. These efforts significantly increased our brand visibility and facilitated direct customer interactions, underpinned by robust external partnerships that enhanced our service quality and value for international transactions.

Our focuses

We focus on the priorities encompassing several core areas: business focus, technology efficiency, risk management, and people development. In terms of business focus, the emphasis is on achieving loan and deposit growth, and enhancing sales productivity throughout the bank. Technology efficiency is aimed at creating a more dependable and faster application architecture, improving project implementation alongside better quality assurance, and ensuring compliance with Technology Risk Management regulations exceeds 90%. Risk management strategies include refining the credit process for better checks and balances, enhancing post-approval assurance processes, reviewing front office onboarding and relationship management, and closing operational loopholes to prevent fraud by customers and employees, while also keeping an eye on the macro-economic situation. Lastly, in people development, the focus is on guiding and growing young talent, adjusting the organizational structure to better fit market realities, seeking synergies and support from best practices in the market and the group, and returning the bank's culture to focus more on efficiency.

Our partners

In 2023, it was a year of forging and strengthening partnerships that have allowed us to diversify our offerings and better meet the financial needs of our customers. We still maintain relationships for our bancassurance partnership with both our internal ecosystem and external businesses such as FWD Life Insurance Cambodia, which allows other strategic partnership companies to maximize the use of digital innovation and solutions to widen access to better insurance services for Cambodians.

Our communities

Committed to social responsibility, our Chip Mong Bank believed in fostering and navigating students to the right career path. The bank participated as a Platinum Sponsor at the "Banking Forum 2023" organized by CamEd Business School, with Senior Vice President Mdm. LAY Rachana speaking at the event. Additionally, during the Western Sangkranta event at Western University, Chip Mong Bank promoted its tailored financial services to students, offering special account opening and Visa Debit Card benefits. On the philanthropic front, our shareholders donated USD 200,000 to the Samdech Techo Volunteer Doctors Association and USD 700,000 to the Cambodian Red Cross as part of its ongoing support to humanitarian activities which help to improve the overall well-being of our society and people. Moreover, Chip Mong actively supported community health through two major blood donation campaigns in 2023, enhancing its corporate social responsibility footprint and reinforcing its commitment to societal development in Cambodia.

Our team

In 2023, Chip Mong Bank made significant strides in talent development, performance management, and fostering a culture of continuous learning, crucial for our success in a competitive environment. We implemented a comprehensive talent management strategy that effectively attracted, developed, and retained top talent, aligning individual goals with our organizational objectives to enhance employee engagement and productivity. Notably, our staff development utilized the 70%-20%-10% learning model, emphasizing on-the-job practice, team learning, and expert-led training, which facilitated career advancement and skill enhancement across various roles. Key programs launched included Onboarding Training for new staff, Functional Capability Development for sales and branch operations, Leadership Development focusing on managerial skills, and a Personal Effectiveness Program to boost staff productivity through effective self-management techniques.

Our shareholders

Amidst the backdrop of persistent economic volatility, geopolitical conflicts, and the ongoing impact of the global pandemic in recent years, I express profound gratitude to our shareholders for your steadfast trust in our bank's leadership and strategic direction. Your commitment and support have been instrumental in our pursuit of establishing Chip Mong Bank as a trusted and long-term banking institution in Cambodia. Our management team remains dedicated to delivering consistent financial returns and building a sustainable, efficient banking operation. The changes we implemented, though challenging, were essential not only to enhance our customers' banking experience and strengthen our foundational operations but also to adapt to rapidly evolving regulatory requirements. These adjustments have been crucial in positioning our bank for a prosperous future.

Financial report

In a year still shadowed by ongoing economic fluctuations, and the residual impacts of the global pandemic, Chip Mong Bank's financial performance in 2023 underscores the resilience of our strategic approach. This past year marked a significant chapter in our financial narrative. Through a well-balanced combination of net interest income and non-interest income, Chip Mong Bank achieved revenue of USD 84 million and a net profit of USD 30 million. By the close of the year, total client deposits had risen to USD 1 billion, and our loan portfolio expanded to USD 712 million.

The credit quality of our portfolio continued to be robust, upheld by our stringent risk management framework. Enhancing operational efficiency remains a core focus, as we persist in refining our processes and maintaining stringent expense management.

Conclusion

As we conclude another year, I want to extend my deepest gratitude to our shareholders and customers for your continued trust, confidence, and support. Your engagement has been invaluable. I am especially thankful to our dedicated team, whose relentless efforts have been fundamental in navigating the challenges of economic fluctuations, natural adversities, and ongoing global uncertainties. The Chip Mong Bank family has demonstrated remarkable resilience and commitment, constantly striving to deliver exceptional service to our customers and returns to our shareholders.

Looking ahead to 2024, we are committed to advancing our banking services by integrating the latest technological and security enhancements to ensure the finest banking experience for our customers. We are optimistic about the future, anticipating a year of greater achievements and productivity. Together, we are poised to continue building on our legacy, confident that the best days for Chip Mong Bank lie ahead.

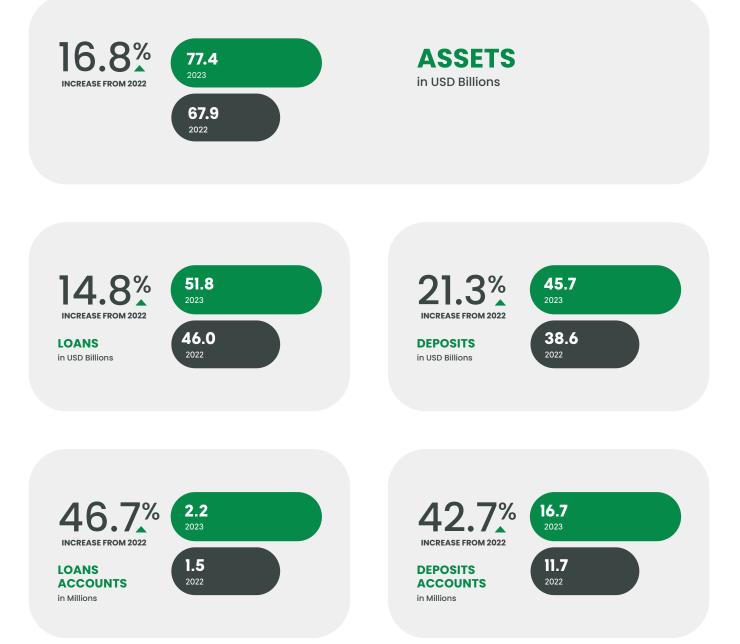

Sincerely Yours,

Auce

John Charles BELL President of Chip Mong Commercial Bank Plc.

KEY POINTS

"Confidence in Cambodia's banking system remains strong despite 2023 being an election year, and the banking system in some countries being impacted by a collapse."

- The economy is expected to have achieved a GDP growth of 5.5% in 2023 and is forecasted to reach 6.4% in 2024 driven by the recovery of the tourism and manufacturing sector.
- Micro, small, and medium enterprises (MSMEs) are believed to be the backbone of the Cambodian economy and are included in the core agenda of the Government's Pentagonal Strategy for the next 25 years. MSMEs that are closely entwined with agribusiness and digitalization will have access to a new loan scheme in partnership with the private sector.
- Cambodia's banking market is highly competitive due to the numerous banks and other financial institutions relative to the size of the economy.
- At the end of 2023 there were 58 commercial banks, 9 specialized banks, and 87 microfinance institutions.
- A highly competitive market for deposits, a decrease in deposit growth, and higher US interest rates have led to increased costs for banks. This results in higher interest rates for borrowers, reducing credit demand. Combined with slower deposit growth, these factors have tightened liquidity and slowed the growth of the broad money supply [M2].
- Despite this, the liquidity coverage ratio for commercial banks remains high at 167.6% which reflects a healthy liquidity in response to cash demand for loan and deposit withdrawals.
- Modernization of the banking sector has increased the efficiency of payments and settlements for both domestic and international transfers.
- Trade, investment, and tourism are advancing through the strengthening of the interoperability between banks and financial institutions across countries in the region.
- Total assets increased 16.8% to 77.4 billions USD.
- Loans to customers increased by 14.8% to 51.8 billions USD and reached 2.2 million accounts. Loans were granted to main industries like retail at 17.6%, home loans at 13.5%, real estate at 9.8%, personal loans at 9.8%, construction at 9.5%, whole sale at 9%, agricultural forestry and fisheries at 9%, manufacturing at 4.4%, hotels and restaurants at 4%, and others at 13.4%.
- Outstanding deposits increased by 21.3% to 45.7 billions USD, and consists of 16.7 million accounts.
- Non-performing loan (NPL) rates in the banking and microfinance sectors were 5.4% and 6.7%, respectively.

Chip Mong Bank's Digital Payments and Services

With the mission of continuously delivering excellent service, Chip Mong Bank has officially launched its very own Visa debit card, available in Classic and Platinum versions. Along with the existing standardized KHQR payment from NBC, customers can now make purchases across a wider payment scope both locally and internationally. As the demand for payments through digital platforms has grown significantly over the past years, Chip Mong Bank continues its integration with new partners. For example, bill payments to MOLVT, American Intercon School, All Language Center and multiple businesses have been added to the app to support customers' ever-growing needs.

Integration of International and Local Payment Gateways

Chip Mong Bank has integrated with the Visa and MASTER payment gateways, making both available in Chip Mong Bank's ATMs, CRMs, and POS machines in Cambodia. This gateway launch allows other banks' customers to do transactions through Chip Mong Bank's ATM and CRM such as cash withdrawal in USD currencies and balance inquiry. Through CSS integration, customers can perform withdrawals in both USD and KHR currencies, balance inquires, check their mini statement, perform a PIN change, and conduct interbank fund transfers and external fund transfers.

Branch Network:

Present in the market for just over four years, Chip Mong Bank has achieved remarkable growth. It has a network of 15 branches, of which 12 are in Phnom Penh, and 3 are in the provinces of Siem Reap, Battambang, and Kampong Cham. With this expansion, Chip Mong Bank has moved a step closer to its clients creating even higher levels of convenience in attending to their financial needs.

Contribution to CSR:

Chip Mong Bank believes in the value of contributing to the betterment of society in various ways that supports the local community. Chip Mong Bank takes initiatives such as integrating a charity donation function into its mobile app and encouraging its customers to donate to charities such as the Kantha Bopha Foundation. Chip Mong Bank has also provided donations to TYDA in support of humanitarian causes, and contributes to the government's numerous activities geared for societal development.

At Chip Mong Bank, we look at every angle of our customers' needs. Our products and services, therefore, are tailored to serve corporations and individuals, who may or may not have an account with us.

NEAK OKNHA LEANG MENG Chairman

Neak Oknha Leang Meng is a local businessman who has been highly influential and wise in contributing to the development and diversification of the business sector in Cambodia for more than four decades. He is the co-founder and group president of Chip Mong Group Co., Ltd. ("CMG"), a large local multinational company with 14 businesses. In 2019, he was appointed Chairman of the Board of Directors of Chip Mong Commercial Bank Plc. (Chip Mong Bank).

He is a visionary business leader dedicated to developing and implementing short, medium, and long-term strategies that ensure the success and sustainable growth of all companies under Chip Mong. He continually enhances the reputation of Chip Mong year after year, both domestically and internationally, by creating and seizing opportunities to expand business potential, fostering a strong culture, human resource development, increasing capabilities, agility, and integrity. His strategic acumen and dedication to society have significantly contributed to the development of the business sector and helped drive economic growth in Cambodia.

OKNHA LEANG HUONG Board of Director

Oknha Leang Huong was appointed as Board Director of Chip Mong Bank in 2019. Since 2016, he has held the position of the President of Chip Mong Land Co., Ltd. ("CMLD"). Prior to becoming the President of CMLD, he was a Senior Executive Vice President of CMG. He provides independent advice and counsel to the Chief Executive Officer ("CEO") and keeps abreast of the activities of management and the company. In late 2022, he was appointed as Cluster President to lead the Group IT Function, Chip Mong Land, Grand Royal Golf & Resorts, and Granferte Phnom Penh.

His role extends to overseeing and arranging the Board of Directors' discussions, ensuring the Board reaches consensus decisions and making strategic recommendations to Board Committees and their Chairs. He also collaborates closely with all Committee Chairs to guarantee the effective operation of each committee and maintains provision of regular updates to the Board on committee actions.

Oknha Leang Huong obtained an Associate's Degree in Business from Thames Business School in Singapore in 1999.

OKNHA LEANG POV Board of Director

Oknha Leang Pov has been appointed as Board Director of Chip Mong Bank since 2019. As well to being as the Director of Chip Mong Bank, he is also the Cluster President and to undertake chairman role for Chip Mong's joint ventures and investment projects, including Crown Khmer Beverage Cans Limited, Chip Mong Insee Cement Corporation, Hyatt Regency Phnom Penh, Fairfield by Marriott Phnom Penh, Steel Mill, and new investment projects. Prior to serving as the Cluster President, he also joined KHB in 2011 as Senior Vice President.

He is actively working with all Committee Chairs to ensure effective functioning and update them on actions taken. He keeps abreast of all activities of the company and its management team. Furthermore, he helps ensure that action items established by Board Committees are tracked as appropriate. He is also in charge of facilitating full and candid Board discussions to ensure that the Board can achieve consensus decisions.

In 2019, he went to Harvard Business School in Boston, USA, for his Executive Program called Advance Management Program (AMP). He obtained a Certified Brew Master from Berlin, Germany in 2010 and holding a Bachelor's Degree in Business Management from Fisher College, Boston, USA in 2003.

MDM. LY SOKCHHENG Board of Director

Mdm. Ly Sokchheng was appointed as Board of Director at Chip Mong Bank in 2023. Currently, she is also serving as the President of Chip Mong Retail Co., Ltd. ("CMRT"). Her career began in 2014 in the Marketing and Sales Department at Khmer Beverages Co., Ltd. By early 2019, she had advanced to her final position there as Senior Vice President of Marketing and Sales, before transitioning to her current role at Chip Mong Retail Co., Ltd. ("CMRT").

With many years of experience, she possesses excellent management, leadership, analytical, problem solving, decision-making, communication, and interpersonal abilities, all of which foster business progression towards success.

Mdm. Ly Sokchheng earned her Bachelor of Science in Business Administration with a double major in Marketing and Finance from Northeastern University in Boston, USA, in 2013. Her academic background and professional trajectory underscore her capability to drive strategic growth and innovation within the financial services industry.

MR. TENG KOYTRY Board of Director

Mr. Teng Koytry was appointed as Board Director of Chip Mong Bank in 2022. He currently is a co-founder and COO of MP3 Distribution Co., LTD. From 2015-2023, he was an Associate Sales Director at CMLD. Prior to joining CMLD in 2018, he was a Learning & Development Manager at CMG.

He has more than eight years of experience in Learning & Development, Leadership, Business Strategies, Data Analytics, Operations Management, and Interpersonal Communication.

He completed a Strategy Execution Course from the Harvard Business Online School in 2021. Furthermore, he earned a Master's Degree in Southeast Asian Studies from Ohio University, USA in 2015 and a Bachelor's Degree in International Studies from Royal University of Phnom Penh, Cambodia in 2012.

MR. LIM HAK KHOUN Independent Board Director

Mr. Lim Hak Khuon was appointed as Independent Board Director of Chip Mong Bank in 2020. Currently, he also serves as Chairman of Key Real Estate Co., Ltd., and Chairman of Prestige Education Co., Ltd.

He brings with him over 20 years of professional experience, most of it gained in the banking sector, where he has held various middle/senior management and executive positions.

He also holds a Business Degree from York University, Canada and is fluent in Khmer, Chinese (Mandarin, Cantonese and Teochew dialects), English, and French.

MR. ROS KHEMARA Independent Board Director

Mr. Ros Khemara was appointed as Independent Board Director of Chip Mong Bank in September 2023. Currently, he is an independent Senior Consultant, specialized in the Cambodian Financial Factor. He has worked with diverse stakeholders including ADB, IFC/WB, The Asia Foundation, Economic Institute of Cambodia, NGO Forum, and World Vision.

He has over 20 years of experience and in-depth practical knowledge in public and private sector development in Cambodia and across the region. He specializes in project/program design in the areas of the investment climate, access to finance, trade, and small & medium-size enterprise development.

Mr. Ros Khemara earned a Master of International Relations at Ritsumeikan University, Kyoto, Japan in 2005. Furthermore, he completed a Bachelor of Education (BEd.), received accreditation as a Teacher of English as a Foreign Language from the Institute of Foreign Languages (IFL), Phnom Penh, Cambodia in 2002 and a has a Bachelor of Business Administration (BBA), Major in Management from the National Institute of Management, Phnom Penh, Cambodia in 2000.

MR. John Charles BELL President

Mr. Bell has over 20 years of experience in managing retail banking businesses and leading them to become some of the highest-growth retail banks in Central and Eastern Europe regions including Citibank, ABN-AMRO, and the Royal Bank of Scotland.

He has a thorough understanding of consumer banking across functions, products, consumers, and channels, and with his long-serving expertise, he was able to lead and influence high productivity levels to achieve strategic objectives. Under his direction and his keen enthusiasm in driving innovation of delivering superior and excellent service to his customers, both Citibank and RBB won awards in Customer Service Excellence and Product Innovation.

After completing his mandate for RBS International in 2014, Mr. Bell led an initiative to launch a mono-line credit card business in Central Europe based in Bucharest, Romania which then was launched in April 2015. In the same year, Mr. Bell joined Khan Bank in Mongolia as Chief Executive Officer and successfully lead the digital and operational transformation of the bank. By 2017, Khan Bank had become the largest most profitable bank in the Mongolian market with a clear focus on digital and card payments.

Mr. Bell is a strong business leader excelling at finding and leveraging synergy across organizational functions and business lines. Skillful at talent identification, business development, and management, he challenges and empowers leaders across the organization and fosters an open, direct, performance-driven culture channeling all the visions into strategies and executions.

MDM. Rachana LAY

Senior Vice President & Head of Retail Banking

Mdm. Rachana is currently serving as a Senior Vice President of Chip Mong Commercial Bank (CMCB), and Head of Retail Banking and Branch Management. Prior to CMCB, Mdm. Rachana has gained years of professional experiences at senior management level in banking and financing. She had also experience in serving as Chairwoman of Sustainable Finance Committee at the Association of Banks in Cambodia (ABC) and in developing Cambodian Sustainable Finance Principles. She has served various positions in Credit, Branch Management, International Banking and Risk Management in capacity as Deputy General Manager in Cambodia's leading bank and micro-finance institution. Her first position was as a Credit Analyst at Crédit Agricole Indosuez, Phnom Penh Branch. She holds Master in Business Administration from the Asian Institute of Technology, Thailand and a Bachelor Degree from the Royal University of Law and Economics in Phnom Penh.

MR. Naroth LON Head of Finance

Mr. Lon Naroth has been with Chip Mong Bank since November 2020 as the Manager of Finance Systems and Management Reporting. He was named Head of Finance in June 2022. He oversees the overall financial management functions of the bank, covering liquidity management, financial accounting and taxation, regulatory & performance reporting, finance systems and agent banking support. Mr. Naroth has experience working for regional banks and audit firms in various fields including financial audits, accounting, taxation, financial reporting, regulatory reporting, budgeting, and management reporting, as well as system migration projects.

He holds a Master Degree in Finance and Banking from Cambodian Mekong University and an Advanced Diploma in Accounting and Business from the Association of Chartered Certified Accountants. As part of his continuous professional development, he has attended various workshops and short training programs locally and internationally.

MRS. Sokuntheary VONG Head of Operations

Mrs. Vong Sokuntheary joined Chip Mong Bank in August 2022 and currently serving as the Head of Operations overseeing on Check Clearing, Domestic Transfer, Credit Ops, Branch Support & Ops Governances, International Remittance, Cash & SST Mgmt, Digital Payment Ops, Card Ops, and 24/7 Call Center. Prior to joining Chip Mong Bank, she was the Deputy Head of Centralized Operations at Prince Bank. She has spent more than 10 years of her professional career in the financial sector developing a profound set of skills in finance management, portfolio management, risk management, banking, and operations. It is worth noting that Mrs. Sokuntheary was also serving as the Head of Processing & Governance (Myanmar Branch) during 2018.

Mrs. Sokuntheary hold a master's degree in Finance & Banking, and a bachelor's degree in Marketing from National University of Management (NUM).

MRS. Sopheak YEN Head of Compliance

Mrs. Yen Sopheak is one of the pioneers in the management team of Chip Mong Bank, having joined the bank since 2018. Her main responsibilities include overseeing the Compliance Department and reporting to the Chairman of the Board Risk Committee. As the Head of the Compliance, Mrs. Sopheak is responsible for the overall management of compliance program, leading and directing the compliance team, and advising compliance-related activities within the bank. She is the primary liaison for the National Bank of Cambodia (NBC) and the Cambodia Financial Intelligent Unit (CAFIU).

Mrs. Sopheak has over ten years of working experience in the banking industry, specializing in development and continuous improvement of an enterprise-wide compliance framework for governance and internal control to prevent compliance risk as well as to build compliance culture. Mrs. Sopheak achieved ICA International Advanced Certificate in Anti-Money Laundering from International Compliance Association (ICA), Corporate Governance Master Class from the Institution of Banking and Finance (IBF) and International Finance Corporation (IFC) and earned Regulatory Compliance Certification from the IBF. She also earned a Bachelor's Degree in Informatics Economics from the Royal University of Law and Economics.

MR. Samrach CHEY Director/Head of Risk Management

Mr. Chey Samrach has been with Chip Mong Bank since August 2018 as one of the pioneers of the management team. He oversees the overall risk management division, covering all risk aspects of the bank including credit risk, operational risks and other types of risks. Samrach has experience working for international banks and micro-finance deposit-taking institutions in various posts including business performance management, research and analysis, SME banking, credit underwriting and control, as well as risk management of diversified client portfolios from micro-enterprises and SMEs to large local corporates, MNCs and financial institutions.

MR. Virak PHAY Head of Internal Audit

Mr. Phay Virak has many years of professional experience in banking industry and two international audit firms. He joined Chip Mong Bank in 2019 as Head of Internal Audit, taking charge of overall performance of Internal Audit Department and reporting to the Board Audit Committee. He was an Audit Deputy Manager at PricewaterhouseCoopers (Cambodia) and Audit Manager at Deloitte (Cambodia) Co., Ltd before moving to Chip Mong Bank. He serves various clients, mainly in insurance and banking industries.

Mr. Virak obtained his Bachelor of Business Administration in Accounting from National University of Management, Bachelor of Education in English Literature from Institute of Foreign Languages at Royal University of Phnom Penh, Certified Accounting Technician from CamEd Business School, and qualified to become a member of the Association of Chartered Certified Accountants (ACCA) from United Kingdom.

Talent Development and Growth

In 2023, the Human Resources department of Chip Mong Bank achieved several key highlights that contributed to the overall success of the organization in a tough economic situation. One of the main achievements was implementing a comprehensive talent management strategy that focused on attracting, developing, and retaining top talent within the company. This strategy helped to ensure that the organization had the right people in place to drive business growth and innovation.

Another key highlight was the successful implementation of a performance management system that aligned individual goals with organizational objectives. This system helped to improve employee engagement and productivity, leading to increased efficiency and effectiveness across all departments.

In addition, the HR department played a crucial role in fostering a culture of continuous learning and development within the organization. By offering training programs and opportunities for career advancement, they were able to empower employees to reach their full potential and contribute to the company's success.

Staff development in Chip Mong Bank refers to the development of staff capacity through 70%-20%-10% learning model. This means that the bank focuses on supporting and engaging in learning through in the job practices, sharing with and learning from team members, as well as through in-class trainings by Subject Matter Expert (SME). Such development not only helps them to become more skillfully effective in their roles, but also progresses to higher roles.

In 2023, Chip Mong Bank successfully implemented key staff development programs as below.

- 1. Onboarding Training Program: successfully completed 11 intakes for new staff.
- 2. Functional Capability Development Program: implemented 5 sales skills trainings for branch sales team, 30 trainings for branch staff (CSO, Teller, Deputy and/or Branch Managers) on bank products, services, and branch operation procedures, and the key NBC regulated trainings in compliance, risk management, audit and IT security.
- 3. Leadership Development Program completed 3 key flagship programs for front and back-office managers. Skills in focus included leadership skills, team management, coaching and performance management.
- 4. Personal Effectiveness Program completed 2 intakes on Self-development series, aiming at improving staff productivity through self-planning, task delegation, and routine 1-1 feedback with their supervisors.

Human Resources Initiatives

Looking ahead to 2024, the HR department has identified several strategic initiatives aimed at further driving business growth in an increasingly challenging economic environment. One of these initiatives is to enhance diversity and inclusion within the organization by implementing targeted recruitment strategies and creating a more inclusive work environment.

Another key initiative is to focus on employee well-being and mental health by offering support services and resources for employees facing personal or professional challenges. By prioritizing employee wellness, the HR department aims to improve overall job satisfaction and retention rates.

Furthermore, the HR department plans to continue investing in technology solutions that streamline HR processes and improve data analytics capabilities. By leveraging data-driven insights, they can make more informed decisions about talent management, workforce planning, and organizational development.

Overall, by focusing on talent management, performance improvement, learning and development, diversity and inclusion, employee well-being, and technology integration, the HR department is well-positioned to drive business growth and success in 2024 despite tough economic conditions.

Corporate SOCICI Responsibility

Adoption of Cambodia's Sustainable Finance Principles:

As a member of the Association of Banks in Cambodia, Chip Mong Bank is proud to adopt the nine Cambodian Sustainable Finance Principles, as follows:

These principles can inspire all member banks to implement the appropriate guidelines to protect the environment and society, as well as to promote innovation, E&S standards, transparency, and accountability.

CHIP MONG BANK INVESTS IN SUSTAINABILITY

Chip Mong Bank has always been committed to the protection of the environment, which is the essential driving force behind the bank's continuous investment in sustainability. These investments focus on two important goals: creating environmentally friendly products and services such as the revamped Chip Mong Bank App and the Internet Banking service, which reduce the need for travel and therefore carbon dioxide emissions; and offering option for taking printing receipt or not for every service such as ATMs and CRMs. Requesting a loan from Chip Mong Bank will trigger the Credit Operations Department to assess and evaluate all proposed activities in regards to their environmental or social impacts. Chip Mong Bank also applies environmental protection measures at its offices, which includes air-conditioning equipped with automatic shut-off systems and meeting rooms equipped with full digital concepts for staff to take notes on laptops instead of paper. Printing and copying is also minimized and, where possible, all other banking forms are completed digitally. Moreover, the staff room features water dispensers to encourage our team to use personal water bottles and reduce their reliance on single-use plastics. All water faucets are fitted with water saving notices. Additionally, all the bank's offices and branches take the environment seriously, with an environmental focus on sustainable landscaping and decor.

CORPORATE SOCIAL RESPONSIBILITY AND GIVING BACK TO SOCIETY:

Chip Mong Bank, a business unit of the Chip Mong Group established in 1982, has earned a reputation as one of the country's most reliable banks. This trust is built on a foundation of core values and a clear vision. Committed to social responsibility, the bank invests significantly in the healthcare sector and the well-being of Cambodians, providing support during challenging times, including assistance to families, children, and the elderly.

Chip Mong Bank joined as a Platinum Sponsor in the "Banking Forum 2023" organized by «CamEd Business School» with the presence of Senior Vice President/Head of Retail Banking, Mdm. LAY Rachana participating as a guest speaker on September 28, 2023.

Chip Mong Bank Booth at Western Sangkranta event in Western University on April 9, 2023 Chip Mong Bank is excited to bring our smart financial services that suit students' smart and modern lifestyle with special offers relating to our bank account opening and Visa Debit Card which are uniquely designed and come with additional benefits.

On November 20, 2023, Chip Mong donated USD 200,000 (2nd year of the MOU) to the Samdech Techo Volunteer Doctors Association (TYDA) at the Hyatt Regency Hotel in Phnom Penh to support humanitarian causes and actively contribute to the government to develop society through a variety of activities.

In 2023, Chip Mong has donated USD 700,000 to the Cambodian Red Cross on the occasion of the 160th anniversary of World Red Cross and Red Crescent Day, May 8, 2023.

SHAREHOLDERS OF CHIP MONG BANK

BLOOD DONATION ACTIVITIES

Blood Donation **Phase 1**: Chip Mong and the Association of Banks in Cambodia accomplished the "Donate Blood, Save Lives" campaign on International Women's Day, 2023, at Chip Mong 271 Mega Mall. The blood drives received 179 voluntary donors from the National Bank of Cambodia, the Association of Banks in Cambodia, Chip Mong, many financial institutions, and the public. This achievement was a great success in giving back to society.

Blood Donation **Phase 2**: Chip Mong and other three business units, Khmer Beverages, Chip Mong Retail, Chip Mong Land, in collaboration with the National Blood Transfusion Centre, organized a lifesaving campaign, "Blood Donation, Save Lives," to give hope and a second life to those in urgent need of life-saving blood transfusion on August 1, 2023, at Chip Mong 271 Mega Mall. The lifesaving campaign, "Blood Donation, Save Lives," was attended by employees of Chip Mong, as well as many public volunteers.

Corporate Governance

RISK MANAGEMENT

The bank's Risk Management Framework ("RMF") is in place to provide a coherent foundation by outlining an overarching methodology and guideline for governing the key risks that the bank faces including risk governing structure, lines of defense, key responsibilities of each committee, functions, and frameworks, as well as policies and procedures for proper and effective risk management.

Two levels of committees have been established:

- i) Board level committees and
- ii) Management level committees.

COMMITTEES STRUCTURE

Board level committees focus on broad strategies and policies, while management level committees focus on action plans and procedures.

The "three lines of defense" principle is adopted, and specialized committees have been set up for an effective management of different types of risk:

| 3rd Line of Defense | Internal Audit | | | | | | |
|------------------------|------------------|--|---|--------------------------|--------------------------------------|--|---|
| | | | Risk Manag | ement and Cor | npliance | | |
| 2nd Line of | Credit Committee | Asset-Liability Committee | IT Steering Committee | IT Strategy Committee | Human Resources Committee | Risk Management Committee | Executive Committee |
| Defense | Credit Risk | Liquidity Risk, Funding Risk, Pricing Risk, Capital Management, Market Risk | Technology Risk Information Security | | Personnel Related Risk HR Risk | Operational Risk, Credit Portfolio Risks and Other Non-Credit Risks | Business Risks Strategic Risks |
| 1st Line of | Retail Banking | Finance | IT Shared Services | | Human | Presic | lent |
| Defense | Business Banking | Treasury & Markets | Digital Banking & | Payment Products | Resources | Other Relevant Departments | |

Three independent functions have been set up including Risk Management and Compliance for the permanent control review and Internal Audit for the periodic control review.

For each type of risk, the Board has set a risk appetite and tolerance level in the form of Key Risk Indicators, which provide early warning signals when risks move in a direction that may require mitigating actions/controls.

Chip Mong Bank aims to comply with the letter and spirit of the regulatory standards and environment in which it operates to ensure healthy growth, as well as safe and sound practices. The Compliance Department is led by the Head of Compliance who has been duly approved by the NBC and has a direct functional reporting line to the Chairman of the Board Risk Committee who approved the annual compliance plan. Compliance is governed by the Compliance Framework approved by the Board of Directors to implement compliance policies and AML-CFT policy. The Head of Compliance also acts as the coordinator with the NBC and the Cambodia Financial Intelligence Unit (CAFIU).

Chip Mong Bank has dedicated more technology and human resources to compliance to ensure that the bank complies with relevant regulations. The bank continually maintains staff awareness of AML/CFT policy through training programs, including existing and new staff being embedded into an induction course. 23 sessions were carried out during 2023. A compliance self-assessment checklist for each department was developed and enforced to ensure compliance risks will be timely monitored and promptly responded to. The compliance team has also participated in a working group in developing products and services to meet customers needs, as well as to comply with the applicable regulations. These activities were undertaken to embrace compliance as a culture and to manage regulatory risk as well as reputational risk better.

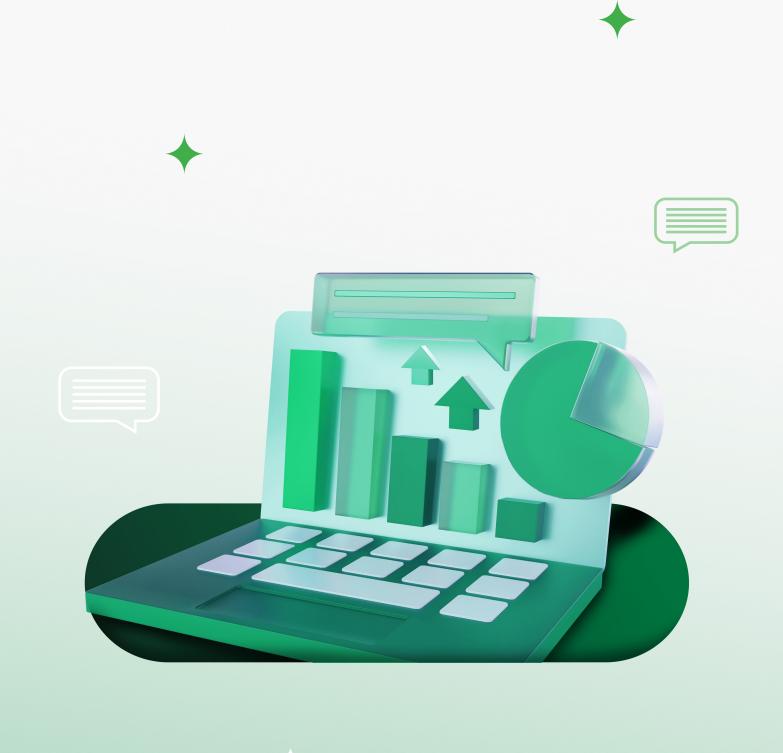

Internal audit department has conducted 61 audit projects at the Bank's head office and branches for the year 2023. The Internal audit department is an independent function which reports directly to the Board Audit Committee. The department runs the internal audit work based on the approved annual audit plan and in compliance with the internal audit framework, as well as internal audit policy and procedures which are approved by the Board Audit Committee.

Audited Financial Statements

- 8.1 Directors' report
- 8.2 Independent Auditor's Report
- 8.3 Statement of Financial Position
- 8.4 Statement of Profit or Loss and Other Comprehensive Income
- 8.5 Statement of Changes in Equity
- 8.6 Statement of Cash Flows
- 8.7 Notes to the Financial Statements

The Board of Directors (the Directors) submits their report together with the audited financial statements of Chip Mong Commercial Bank Plc. (the Bank) for the year ended 31 December 2023.

THE BANK

Chip Mong Commercial Bank Plc. (the Bank) was incorporated in Cambodia on 15 June 2018 under the Registration No. 00034187 issued by the Ministry of Commerce. On 17 January 2019, the Bank obtained a permanent banking license No. B-47 from the National Bank of Cambodia (the NBC).

PRINCIPAL ACTIVITIES

The principal activities of the Bank are the provision of all aspect of banking business and related financial services in Cambodia.

FINANCIAL PERFORMANCE

The financial performance of the Bank for the year is set out in the statement of profit or loss and other comprehensive income on page 44.

No dividends were declared or paid during the year ended 31 December 2023 (2022: nil).

STATUTORY CAPITAL

On 21 December 2021, the Bank requested the NBC to increase the share capital from US\$105,000,000 to US\$115,000,000. This request was approved by the NBC on 12 January 2022, and the amendment to the Bank's Memorandum and Articles of Association (M&AA) was endorsed by the Ministry of Commerce (MoC) on 23 February 2022.

On 16 May 2022, the Bank submitted another request to the NBC to increase the share capital from US\$115,000,000 to US\$135,000,000, and the approval was obtained from NBC on 8 June 2022. The amendment to the M&AA was endorsed by MoC on 8 July 2022.

BAD AND DOUBTFUL FINANCIAL FACILITIES

Before the financial statements of the Bank were drawn up, the Directors took reasonable steps to ascertain that action had been taken in relation to the writing off of bad loans and advances or making of allowance for impairment losses, and satisfied themselves that all known bad loans and advances had been written off and that adequate loss allowance has been made for bad and doubtful loans and advances.

At the date of this report and based on the best of knowledge, the Directors are not aware of any circumstances which would render the amount written off for bad loans and advances or the amount of the allowance for impairment losses in the financial statements of the Bank inadequate to any material extent.

ASSETS

Before the financial statements of the Bank were drawn up, the Directors took reasonable steps to ensure that any assets which were unlikely to be realised in the ordinary course of business at their value as shown in the accounting records of the Bank have been written down to an amount that might be expected to be realised.

At the date of this report and to the best of their knowledge, the Directors are not aware of any circumstances which would render the values attributed to the assets in the financial statements of the Bank misleading in any material respect.

CONTINGENT AND OTHER LIABILITIES

At the date of this report, there is:

(a) no charge on the assets of the Bank which has arisen since the end of the financial year which secures the liabilities of any other person, and

(b) no contingent liability in respect of the Bank that has arisen since the end of the financial year other than in the ordinary course of banking business.

No contingent or other liability of the Bank has become enforceable, or is likely to become enforceable within a period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may have a material effect on the ability of the Bank to meet its obligations as and when they become due.

CHANGE OF CIRCUMSTANCES

At the date of this report, the Directors are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Bank, which would render any amount stated in the financial statements misleading in any material respect.

ITEMS OF AN UNUSUAL NATURE

The results of the operations of the Bank for the financial year were not, in the opinion of the Directors, materially affected by any items, transactions or events of a material and unusual nature. There has not arisen in the interval between the end of the financial year and the date of this report any items, transactions or events of a material and unusual nature. There has not arisen in the interval between the end of the financial year and the date of this report any items, transactions or events of a material and unusual nature likely, in the opinion of the Directors, to substantially affect the results of the operations of the Bank for the year in which this report is made.

THE BOARD OF DIRECTORS

The members of the Board of Directors of the Bank during the year and as at the date of this report are:

| Neak Oknha Leang Meng | Chairman |
|-----------------------|-----------------------|
| Oknha Leang Huong | Director |
| Oknha Leang Pov | Director |
| Madam. Ly Sokchheng | Director |
| Mr. Teng Koytry | Director |
| Mr. Lim Hak Khoun | Independence Director |
| Mr. Ros Khemara | Independence Director |

THE DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

The Directors are responsible for ascertaining that the financial statements present fairly, in all material respects, the financial position of the Bank as at 31 December 2023 and of its financial performance and its cash flows for the year then ended in accordance with the Cambodian International Financial Reporting Standards (CIFRS).

In preparing these financial statements, the Directors are required to:

- (i) adopt appropriate accounting policies which are supported by reasonable and prudent judgments and estimates and then apply them consistently;
- (ii) comply with the disclosure requirements of CIFRS or, if there have been any departures in the interest of fair presentation, these have been appropriately disclosed, explained and quantified in the financial statements;
- (iii) maintain adequate accounting records and an effective system of internal controls;
- (iv) prepare the financial statements on the going concern basis unless it is inappropriate to assume that the Bank will continue operations in the foreseeable future; and
- (v) effectively control and direct the Bank in all material decisions affecting its operations and performance and ascertain that such have been properly reflected in the financial statements.

The Directors confirm that the Bank has complied with the above requirements in preparing the financial statements.

APPROVAL OF THE FINANCIAL STATEMENTS

The accompanying financial statements, together with the notes thereto, which present fairly, in all material respects, the financial position of the Bank as at 31 December 2023 and the financial performance and cash flows of the Bank for the year then ended in accordance with CIFRS, were approved by the Board of Directors.

Signed in accordance with a resolution of the Board of Directors.

Neak Oknha Leang Meng

Chairman

Phnom Penh, Kingdom of Cambodia 29 March 2024

To the shareholders of Chip Mong Commercial Bank Plc.

OUR OPINION

In our opinion, the financial statements present fairly, in all material respects, the financial position of Chip Mong Commercial Bank Plc. (the Bank) as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with Cambodian International Financial Reporting Standards (CIFRS).

What we have audited

The Bank's financial statements comprise:

- the statement of financial position as at 31 December 2023;
- the statement of profit or loss and other comprehensive income for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include material accounting policy information and other explanatory information.

BASIS FOR OPINION

We conducted our audit in accordance with Cambodian International Standards on Auditing (CISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENCE

We are independent of the Bank in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements of the Kampuchea Institute of Certified Public Accountants and Auditors' Code of Ethics for Certified Public Accountants and Auditors (KICPAA Code) that are relevant to our audit of the financial statements in Cambodia. We have fulfilled our other ethical requirements of the KICPAA Code.

OTHER INFORMATION

Management is responsible for the other information. The other information obtained at the date of this auditor's report are the directors' report and the supplementary financial information required by the National Bank of Cambodia but do not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the financial statements in accordance with CIFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with CISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with CISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

For the year ended 31 December 2023

1. BACKGROUND INFORMATION

Chip Mong Commercial Bank Plc. (the Bank) was incorporated in Cambodia on 15 June 2018 under the Registration No. 00034187 issued by the Ministry of Commerce. On 17 January 2019, the Bank obtained a permanent banking license No. B-47 from the National Bank of Cambodia (the NBC).

The principal activities of the Bank are the provision of all aspect of banking business and related financial services in Cambodia.

The original registered office of the Bank was located at No. 137B, Mao Tse Tung Blvd, Sangkat Boeng Keng Kang 3, Khan Chamkarmon, Phnom Penh, Cambodia. Subsequently, the registered office of the Bank was changed to Building No. 174 (1st, 3rd & 4th floor), Czech Republic Boulevard corner Street No.164, Sangkat Veal Vong, Khan Prampir Makara, Phnom Penh, Kingdom of Cambodia. The amendment to the Memorandum and Articles of Association (M&AA) was endorsed by the Ministry of Commerce (MoC) on 15 December 2021.

The financial statements were authorised for issue by the Board of Directors on 29 March 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The material accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 BASIS OF PREPARATION

The financial statements are prepared in accordance with Cambodian International Financial Reporting Standards (CIFRS) which are based on all standards published by the International Accounting Standard Board including other interpretations and amendments that may occur in any circumstances to each standard.

The financial statements have been prepared under the historical cost convention.

The Bank discloses the amount for each asset and liability that is expected to be recovered or settled no more than 12-month after the reporting period as non-current.

The preparation of financial statements in conformity with CIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

An English version of the financial statements have been prepared from the financial statements that are in the Khmer language. In the event of a conflict or a difference in interpretation between the two languages, the Khmer language financial statements shall prevail.

2.2 NEW STANDARDS AND INTERPRETATION

(i) New and amended standards adopted by the Bank

The Bank has applied the following standards and amendments for the first time for their annual reporting period commencing 1 January 2023:

- Disclosure of Accounting Policies Amendments to CIAS 1 and CIFRS Practice Statement 2,
- Definition of Acounting Estimates Amendments to CIAS 8, and
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction Amendments to CIAS 12.

(ii) New standards and interpretations not yet adopted by the Bank

Certain new accounting standards and interpretations have been published that are not mandatory for 31 December 2023 reporting period and have not been early adopted by the Bank. These standards are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

2.3 FOREIGN CURRENCY TRANSLATION

(i) Functional and presentation currency

Items included in the financial statements of the Bank are measured using the currency of the primary economic environment in which the Bank operates (the functional currency). The functional currency is United States dollars (US\$) because of the significant influence of the US\$ on its operations. The financial statements are presented in US\$ which is the Bank's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in currencies other than US\$ are recognised in profit or loss.

(iii) Presentation in Khmer Riel

In compliance with the Law on Accounting and Auditing, the financial statements shall be expressed in Khmer Riel (KHR). The statement of profit or loss and other comprehensive income and the statement of cash flows are translated into KHR using the average exchange rates for the year. Assets and liabilities for each statement of financial position presented and shareholders' capital are translated at the closing rates as at the reporting date. Resulting exchange differences arising from the translation of shareholders' capital and reserves are recognised directly in equity; all other resulting exchange differences are recognised in the other comprehensive income.

The Bank has used the official rates of exchange published by the National Bank of Cambodia, and as at the reporting date, the average rate was US\$ 1 to KHR 4,110 (2022: US\$ 1 to KHR 4,087) and the closing rate was US\$ 1 to KHR 4,085 (2022: US\$ 1 to KHR 4,117).

2.4 CASH AND CASH EQUIVALENTS

For the purpose of presentation in the statement of cash flows, cash and cash equivalents comprise cash on hand, unrestricted deposits and placements with the central bank and other banks, and other short-term highly liquid investments with original maturities of three months or less where the Bank has full ability to withdraw for general purpose whenever needed and subject to an insignificant risk of changes in value.

Deposits and placements with the central bank and other banks are carried at amortised cost in the statement of financial position. Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

2.5 FINANCIAL ASSETS

(a) Classification

The Bank classifies its financial assets as measured at amortised cost and they are cash on hand, deposits and placements with the central bank and other banks, loans and advances at amortised cost, investment in debt security and other financial assets.

The classification depends on the Bank's model for managing financial assets and the contractual terms of the financial assets cash flows.

The Bank classifies its financial assets at amortised cost only if both of the following criteria are met:

- · The asset is held within a business model with the objective of collecting the contractual cash flows, and
- The contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the
 principal outstanding.

(b) Recognition and derecognition

Financial assets are recognised when the Bank becomes a party to the contractual provision of the instruments. Regular way purchases and sales of financial assets are recognised on trade date, being the date on which the Bank commits to purchase or sell the assets.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Bank has transferred substantially all the risks and rewards of ownership. A gain or loss on derecognition of a financial asset measured at amortised cost is recognised in profit or loss when the financial asset is derecognised.

(c) Measurement

At initial recognition, the Bank measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognised for financial assets measured at amortised cost, which results in an accounting loss being recognised in profit or loss when an asset is newly originated.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Bank's business model for managing the assets and the cash flow characteristics of the assets. The Bank classifies its debt instruments as financial assets measured at amortised cost.

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows are solely payments of principal and interest (SPPI), are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised. Interest income from these financial assets is included in finance income using the effective interest rate method.

For staff housing loans at an interest rate below the market rate, such loans are initially recognised at the present value of the future cash payments discounted at a market rate of interest for a similar loan. Differences between the amount of cash paid and the present value of the future cash receipts are recognised as advanced employee benefits in other assets and amortised to employee benefit expense to profit or loss over loan period.

(d) Reclassification of financial assets

The Bank reclassifies financial assets when and only when their business model for managing those assets changes.

(e) Impairment

The Bank assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instrument assets carried at amortised cost and with the exposure arising from credit commitments (including overdrafts and revolving facilities) and financial guarantee contracts. The Bank recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Bank applies a three-stage approach to measuring expected credit losses for the following categories:

Debt instruments measured at amortised cost; and Credit commitments (including undrawn overdrafts and revolving facilities) and financial guarantee contracts

The three-stage approach is based on the change in credit risk since initial recognition:

(a) Stage 1: 12-months ECL

Stage 1 includes financial assets which have not had a significant increase in credit risk since initial recognition or which have low credit risk at reporting date. 12-months ECL is recognised and interest income is calculated on the gross carrying amount of the financial assets.

(b) Stage 2: Lifetime ECL – not credit impaired

Stage 2 includes financial assets which have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but do not have objective evidence of impairment. Lifetime ECL is recognised and interest income is calculated on the gross carrying amount of the financial assets.

(c) Stage 3: Lifetime ECL – credit impaired

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. Lifetime ECL is rec ognised and interest income is calculated on the net carrying amount of the financial assets.

(f) Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into, and they are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument and, if so, the nature of the item being hedged.

Derivative instruments do not qualify for hedge accounting in which changes in fair value are recognised immediately in profit or loss and are included in other gains/(losses) – net

2.6 FINANCIAL LIABILITIES

Financial liabilities are recognised when the Bank becomes a party to the contractual provision of the instruments. Financial liabilities of the Bank include deposits from banks, deposits from customers, borrowings, subordinated debts, lease liabilities and other financial liabilities.

Financial liabilities are initially recognised at fair value less transaction costs for all financial liabilities not carried at fair value through profit or loss.

Financial liabilities that are not classified as fair value through profit or loss are measured at amortised cost. The financial liabilities measured at amortised cost are deposits from banks, deposits from customers, borrowings, subordinated debts and other financial liabilities.

Financial liabilities are derecognised when they have been redeemed or otherwise extinguis

2.7 CREDIT COMMITMENTS AND FINANCIAL GUARANTEE CONTRACTS

Credit commitments (including undrawn overdrafts and revolving facilities) provided by the Bank are measured at the amount of the loss allowance. The Bank has not provided any commitment to provide loans at a below-market interest rate, or that can be settled net in cash or by delivering or issuing another financial instrument.

For credit commitments (including undrawn overdraft and revolving facilities), the expected credit losses are recognised as provisions (presented within other liabilities). However, for contracts that include both a loan and an undrawn commitment and that the Bank cannot separately identify the expected credit losses on the undrawn commitment component from those on the loan component, the expected credit losses on the undrawn commitment are recognised together with the loss allowance for the loan. To the extent that the combined expected credit losses exceed the gross carrying amount of the loan, the expected credit losses are recognised as a provision.

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and other bodies on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantees are initially recognised in the financial statements at fair value on the date the guarantee was given. The guarantees are agreed on arm's length terms and the value of the premium agreed corresponds to the value of the guarantee obligation. No receivable for the future premiums is recognised. Financial guarantee contracts are subsequently measured at the higher of the amount determined in accordance with the expected credit loss model under CIFRS 9 'Financial Instruments' and the amount initially recognised less cumulative amount of income recognised in accordance with the principles of CIFRS 15 'Revenue from Contracts with Customers', where appropriate.

These estimates are determined based on experience of similar transactions and history of past losses, supplemented by the judgement of management. The fee income earned is recognised on a straight-line basis over the life of the guarantee.

Any increase in the liability relating to guarantees is reported in profit or loss within operating expenses.

2.8 OFFSETTING FINANCIAL INSTRUMENTS

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.9 PROPERTY AND EQUIPMENT

Property and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is possible that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Construction work-in-progress is not depreciated. Depreciation on other property and equipment are depreciated using the straight-line method to allocate their cost to their residual value over their estimated useful lives, as follows:

| | Years |
|---------------------------|---|
| Leasehold improvements | Shorter of lease period and its economic life |
| Office equipment | 2 - 10 |
| Computer and IT equipment | 3 - 5 |
| Motor vehicles | 5 |
| Furniture and fixtures | 5 |

Depreciation on work-in-progress commences when the assets are ready for their intended use. The assets' useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

2.10 INTANGIBLE ASSETS

Intangible assets, which comprise acquired computer software licences and related costs, are stated at cost less accumulated amortisation and impairment loss. Acquired computer software licences are capitalised based on the cost incurred to acquire the specific software and bring it into use. These costs are amortised over three years using the straight-line method, except for the license of the core banking system which has a useful life of ten years.

Work-in-progress is not amortised. Costs associated with maintaining intangible assets are recognised as an expense when incurred.

2.11 IMPAIRMENT OF NON-FINANCIAL ASSETS

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation or depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

Any impairment loss is charged to profit or loss in the period in which it arises. Reversal of impairment losses is recognised in profit or loss to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, had no impairment loss been recognised.

2.12 LEASES

The Bank as a lessee

At the inception of the contract, the Bank assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Contracts may contain both lease and non-lease components. The Bank allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the lease assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use.

Assets and liabilities arising from a lease are initially measured on a present value basis.

(i) Lease liabilities

Lease liabilities include the net present value of the lease payments from fixed payments (including in-substance fixed payments), less any lease incentives receivable.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Bank, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Bank where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.

Lease payments are allocated between principal and interest expense. The interest expense was charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

(ii) Right-of-use assets

Right-of-use assets are measured at cost comprising the following:

- the amount the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct cost, and
- restoration cost, if any

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Bank is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Subsequently the right-of-use asset is measured at cost less depreciation and any accumulated impairment losses.

(iii) Recognition exemptions

Payments associated with all short-term and low value leases are charged to profit or loss on a straight-line basis over the period of the lease. Short-term leases are leases with a lease term of 12 months or less.

2.13 INCOME TAX

The income tax expense is the tax payable on the current's period taxable income, based on the applicable income tax rate, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax law enacted or substantively enacted at the reporting date in the country where the Bank operates and generates taxable income.

Deferred tax is provided in full, using the liability method, providing for temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is determined using tax rates based on laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets and they relate to income taxes levied by the same tax authority on the same taxable entity.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.14 PROVISION

Provisions are recognised when the Bank has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

When there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

2.15 REGULATORY RESERVES

Banks and financial institutions are required to compute regulatory provisions, according to Prakas No. B7-017-344 dated 1 December 2017, Circular No. B7-018-001 dated 16 February 2018 and Circular No. B7-021-2314 dated 28 December 2021 (implemented from 1 January 2022) on credit risk classification and provisions on impairment. If the accumulated regulatory provision is higher than the accumulated impairment based on CIFRS 9, the 'topping up' will be recorded as regulatory reserves presented under equity. The reserve is subsequently reversed (up to zero) should the accumulated regulatory provision equal or be lower than accumulated impairment based on CIFRS 9. The regulatory reserve is set aside as a buffer, and is non-distributable, and is not allowed to be included in the net worth calculation.

2.16 EMPLOYEE BENEFITS

(i) Short-term employee benefits

Short-term employee benefits are accrued in the year in which the associated services are rendered by the employees of the Bank.

(ii) Pension obligations

The Bank pays monthly contributions for the compulsory pension scheme to NSSF, a publicly administered social security scheme for pension in Cambodia. The Bank has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expenses when they are due.

(iii) Other employment benefits - seniority payments

In June 2018, the Cambodian government amended the Labour Law introducing the seniority pay scheme. Subsequently on 21 September 2018, Prakas No. 443 K.B/Br.K.Kh.L, was issued providing guidelines on the implementation of the law. In accordance with the law/Prakas, each entity is required to pay each employee with unspecified duration employment contract the following seniority scheme:

• Annual service - effective January 2019, 15 days of their average monthly salary and benefits each year payable every six months on 30 June and 31 December (7.5 days each payment).

The annual service pay is considered as short-term employee benefits. These are accrued in the year in which the associated services are rendered by the employees of the Bank.

2.17 INTEREST INCOME AND EXPENSE

Interest income and expense from financial instruments at amortised cost are recognised within interest income and interest expense respectively in profit or loss using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instruments or, when appropriate, a shorter period to the gross carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Bank takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses.

Interest income is calculated by applying effective interest rate to the gross carrying amount of a financial asset except for:

- Purchased or originated credit-impaired financial assets (POCI), for which the original credit-adjusted effective interest rate is applied to the amortised cost of the financial assets.
- Financial assets that are not POCI but have subsequently become credit-impaired (or stage 3), for which interest revenue is calculated by applying the effective interest rate to their amortised cost (i.e. net of the expected credit loss provision).

2.18 FEE AND COMMISSION INCOME

Fees and commissions are recognised as income when all conditions precedent is fulfilled (performance obligations are satisfied and control is transferred over time or point in time).

Commitment fees for loans, advances and financing that are likely to be drawn down are deferred (together with related direct costs) and income which forms an integral part of the effective interest rate of a financial instrument is recognised as an adjustment to the effective interest rate on the financial instrument.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Bank makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Bank's results and financial position are tested for sensitivity to changes in the underlying parameters. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are outlined below:

(i) Expected credit loss allowance on financial assets at amortised cost

The expected credit loss allowance for financial assets measured at amortised cost requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses).

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- · Determining criteria for significant increase in credit risk;
- · Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL;
- Establishing groups of similar financial assets for the purposes of measuring ECL;
- For individual assessment management makes judgement on the future in respect of the estimation of amount and timing of cash flows from the net realisable value of the underlying collateral value

(ii) Lease terms

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

4. CASH ON HAND

| | 20 | 23 | 2022 | | |

| | 264,131,335 | 1,078,976,504 | 110,756,578 | 455,984,832 |
| Less: | | | | |
| Allowance for expected credit loss | (2,683,893) | (10,963,703) | (1,101,648) | (4,535,485) |
| | 261,447,442 | 1,068,012,801 | 109,654,930 | 451,449,347 |

Annual interest rates on deposits and placements with other banks are as follows:

| | 2023 | 2022 |
|-----------------|---------------|---------------|
| Fixed deposits | 3.00% - 7.50% | 0.05% - 7.80% |
| Demand deposits | Nil | 2.00% - 2.50% |

7. STATUTORY DEPOSITS WITH THE CENTRAL BANK

| | 20 | 2023 | | |
|--------------------------------|------------|-------------|------------|-------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Current | | | | |
| Reserve requirement (i) | 73,630,441 | 300,780,351 | 62,898,713 | 258,954,001 |
| Non-current | | | | |
| Capital guarantee deposit (ii) | 13,589,775 | 55,514,231 | 13,505,529 | 55,602,263 |
| | 87,220,216 | 356,294,582 | 76,404,242 | 314,556,264 |

(i) Reserve requirement

The reserve requirement represents the minimum reserve. Pursuant to the NBC's Prakas No. B7-023-005, the reserve requirement is calculated at 9% for foreign currencies and 7% for local currency (KHR) of customers' deposits and borrowings from 1 January 2023 to 31 December 2023. Prior to the change, it was calculated at 7% for both currencies in 2022. On 28 February 2023, NBC issued notification No. B7-023-438 to exempt the reserve requirement on borrowings for deposit-taking microfinance institutions until 1 September 2023. The reserve requirement on customers' deposits and borrowings bears no interest.

Subsequently from January 2024, the reserve requirement will be calculated at 7% for Khmer Riel and at 12.5% for currencies other than Khmer Riel of customers' deposits and borrowings.

(ii) Capital guarantee deposit

Pursuant to Prakas No. B7-01-136 on bank capital guarantees, dated 15 October 2001, issued by the central bank, the Bank is required to maintain 10% of its registered capital as a statutory deposit with the central bank. The deposit, which is not available for use in the Bank's day-to-day operations, is refundable should the Bank voluntarily cease its operations in Cambodia.

Annual interest rates:

| | 2023 | 2022 |
|---------------------------|------|---------------|
| | | |
| Capital guarantee deposit | 3% | 0.08% - 0.65% |
| Reserve requirement | Nil | Nil |

8. LOANS AND ADVANCES AT AMORTISED COST

| | 2023 | | 2022 | |

| Total gross loans | 718,696,485 | 2,935,875,142 | 770,644,033 | 3,172,741,484 |

(e) By exposure

| | 2023 | | 2022 | |
|--------------------|-------------|---------------|-------------|---------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Large exposure | 63,646,800 | 259,997,180 | 137,589,779 | 566,457,120 |
| Non-large exposure | 655,049,685 | 2,675,877,962 | 633,054,254 | 2,606,284,364 |
| | | | | |
| Total gross loans | 718,696,485 | 2,935,875,142 | 770,644,033 | 3,172,741,484 |

Large exposure is defined by the central bank as overall credit exposure to any individual beneficiary which exceeds 10% of the Bank's net worth.

(f) By relationship

| | 2023 | | 2022 | |
|---------------------|-------------|---------------|-------------|---------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Related parties | 2,654,384 | 10,843,159 | 2,896,959 | 11,926,780 |
| Non-related parties | 716,042,101 | 2,925,031,983 | 767,747,074 | 3,160,814,704 |
| | | | | |
| Total gross loans | 718,696,485 | 2,935,875,142 | 770,644,033 | 3,172,741,484 |

(g) By residency

| | 2023 | | 20 | 22 |
|-----------|-------------|---------------|-------------|---------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Residents | 718,696,485 | 2,935,875,142 | 770,644,033 | 3,172,741,484 |

(h) By interest rate

| | 2023 | 2022 |
|----------------------|-----------------|-----------------|
| Commercial loans | | |
| Long-term loans | 6.50% - 13.00% | 7.30% - 10.00% |
| Short-term loans | 7.00% - 11.50% | 7.70% - 9.00% |
| Overdrafts | 7.50% - 12.00% | 8.50% - 10.50% |
| Consumer loans | | |
| Mortgage loans | 7.43% - 11.50% | 6.50% - 10.00% |
| Staff loans | 3.50% | 3.50% |
| Other consumer loans | 10.50% - 20.00% | 12.00% - 18.00% |

9. DERIVATIVE FINANCIAL INSTRUMENTS

The Bank entered into a cross currency swap agreement with local commercial banks and other financial institutions.

The full fair value of the derivative financial instruments are classified as current assets because maturity of the instruments are within 12 months.

Valuation techniques used to determine fair values

If one or more of the significant inputs is not based on observable market data, the instrument is included in level three; this is the case for cross currency swaps in Khmer Riel.

The Bank performs valuation of fair value of the derivative financial instruments by comparing closing rate published by the National Bank of Cambodia (NBC) with the forward rate of each contract.

| | 2023 | | 2022 | |
|--|-------------------------------------|---|-------------------------------------|--------------------------------------|
| Derivatives at fair value through profit or loss | Amount to be paid US\$ | Amount to be collected KHR'000 | Amount to be paid US\$ | Amount to be collected KHR'000 |
| | Maturity 2024 | | Maturity | y 2023 |
| Cross currency swaps | 5,000,000 | 20,837,580 | 62,000,000 | 260,723,508 |

The movement of derivatives financial instruments are as follows:

| | 202 | 23 | 20 | 22 |
|--|-------------|-------------|-----------|-----------|
| | US\$ | KHR'000 | US\$ | KHR'000 |

13. LEASES

This note provides information for leases where the Bank is a lessee.

The Bank leases various buildings for its head office and branch operation. Rental contracts are typically made for fixed periods of two years to ten years. The lease has varying terms, escalation clauses and renewal rights. On renewal, the terms of the leases are renegotiated.

(a) Amounts recognised in the statement of financial position

| | 20 | 2023 | | 22 |
|-------------------------------------|-----------|------------|-----------|------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Rights-of-use assets - non-current: | | | | |
| Office space | 3,420,661 | 13,973,400 | 4,198,153 | 17,283,796 |
| ATM locations | 63,871 | 260,913 | 74,290 | 305,852 |
| | 3,484,532 | 14,234,313 | 4,272,443 | 17,589,648 |
| Lease liabilities: | | | | |
| Current | 1,020,327 | 4,168,037 | 1,150,606 | 4,737,045 |
| Non-current | 2,984,979 | 12,193,638 | 3,654,828 | 15,046,927 |
| | 4,005,306 | 16,361,675 | 4,805,434 | 19,783,972 |

Additions to the right-of-use assets during the year were US\$324,068 (2022: US\$553,076).

(b) Amounts recognised in the statement of profit or loss

The statement of profit or loss shows the following amounts relating to leases:

| | 2023 | | 2022 | |
|---|-----------|-----------|-----------|-----------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Depreciation – right-of-use assets (note 28) | 1,111,979 | 4,570,234 | 1,036,624 | 4,236,682 |
| Interest expense on lease liabilities (note 24) | 323,094 | 1,327,916 | 370,621 | 1,514,728 |
| Expenses related to short-term and low value leases (note 29) | 426,823 | 1,754,243 | 348,639 | 1,424,888 |
| | 1,861,896 | 7,652,393 | 1,755,884 | 7,176,298 |

(c) Amounts recognised in the statement of cash flows

| | 20 | 23 | 2022 | | |
|--------------------------------|-----------|-----------|-----------|-----------|--|
| | US\$ | KHR'000 | US\$ | KHR'000 | |
| Total cash outflows for leases | 1,450,586 | 5,961,907 | 1,433,717 | 5,859,602 | |

14. DEFERRED TAX ASSETS, NET

| | 20 | 23 | 20 | 22 |

| Income tax expense | 7,523,745 | 30,922,592 | 5,260,903 | 21,501,311 | |

(d) Other matter

Taxes are calculated on the basis of current interpretation of the tax regulations enacted as at reporting date. The management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subjected to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

However, these regulations are subject to periodic variation and the ultimate determination of tax liabilities will be made following inspection by the tax authorities. Where the final tax outcome of these matters is different from the amounts initially recorded, such differences will impact the taxes liabilities and balances in the period in which the determination is made.

22. SHARE CAPITAL

On 21 December 2021, the Bank requested to NBC to increase the share capital from US\$105,000,000 to US\$115,000,000. This request was approved by the NBC on 12 January 2022, and the amendment to the Bank's Memorandum and Articles of Association (M&AA) was endorsed by the Ministry of Commerce (MoC) on 23 February 2022.

On 16 May 2022, the Bank submitted another request to the NBC to increase the share capital from US\$115,000,000 to US\$135,000,000, and the approval was obtained from NBC on 8 June 2022. The amendment to the M&AA was endorsed by MoC on 8 July 2022.

As at 31 December 2023, the registered capital of the Bank is 1.35 million shares (31 December 2022: 1.35 million shares) at a par value of US\$100 per share. All authorised shares are fully paid.

23. REGULATORY RESERVES

Regulatory reserves represented the variance of expected credit loss (ECL) on financial instruments in accordance with CIFRS and regulatory provision in accordance with National Bank of Cambodia (NBC).

As at 31 December 2023, the Bank transferred from retained earnings to regulatory reserves of US\$3,509,541 (2022: transfer from regulatory reserves to retained earnings of US\$219,881).

As in note 2.15, the accumulated regulatory provision based on NBC's guidelines is higher than the accumulated impairment based on CIFRS 9, the 'topping up' is transferred from retained earnings to regulatory reserves presented under equity.

| | 2023 | | 2022 | |
|--|-------------|--------------|-------------|--------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |

(i) Other changes include non-cash movements, including accrued interest expense which will be presented as operating cash flows in the statement of cash flows when paid.

33. COMMITMENTS AND CONTINGENCIES

(a) Loan commitments, guarantees and other financial commitments

The Bank had the contractual amounts of the Bank's off-balance sheet financial instruments that commit it to extend credit to customers as follows:

| | 2023 | | 2022 | |
|---|------------|------------|------------|-------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Instruments measured at amortised cost | | | | |
| Unused portion of overdrafts | 3,124,971 | 12,765,507 | 12,105,791 | 49,839,542 |
| Performance guarantees | 7,617,685 | 31,118,243 | 8,855,984 | 36,460,086 |
| Unused portion of loans and advances to customers | 432,983 | 1,768,736 | 1,599,223 | 6,584,001 |
| | 11,175,639 | 45,652,486 | 22,560,998 | 92,883,629 |
| Less: | | | | |
| Allowance for expected credit loss | (145,644) | (594,956) | (24,388) | (100,405) |
| | 11,029,995 | 45,057,530 | 22,536,610 | 92,783,224 |
| Instruments measured at FVPL | | | | |
| Foreign currency related contracts | 5,100,999 | 20,837,581 | 63,330,255 | 260,730,660 |
| | 5,100,999 | 20,837,581 | 63,330,255 | 260,730,660 |
| Net exposure | 16,130,994 | 65,895,111 | 85,866,865 | 353,513,884 |

(b) Operating lease commitments

The Bank recognised right-of-use assets and lease liabilities for lease contracts where the Bank is a lessee, except for short-term leases, see note 2.12 and note 13 for further information. The lease commitments of short-term leases are insignificant.

(c) Capital commitments

The Bank has no capital commitments in respect of construction and work-in-progress.

34. RELATED-PARTY DISCLOSURES

(a) Related parties and relationships

The Bank is owned by individual local shareholders and has related party relationships with its substantial shareholders, companies in common control and key management personnel.

| Related party | Relationship |
|--------------------------------------|---|
| Entities under the same shareholders | Related companies |
| Key management personnel | Key management personnel of the Bank are all directors of the Bank who make critical decisions in relation to the strategic direction of the Bank and senior management staff (including their close family members). |

(b) Loan and advances at amortised cost

| | 202 | 3 | 2022 | |
|---------------------------------------|-----------|------------|-----------|------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Key management personnel | 1,012,952 | 4,137,909 | 1,227,111 | 5,052,016 |
| Companies under the same shareholders | 1,641,432 | 6,705,250 | 1,669,848 | 6,874,764 |
| | 2,654,384 | 10,843,159 | 2,896,959 | 11,926,780 |
| Interest income | 193,804 | 796,534 | 120,957 | 494,351 |

(c) Deposit and placements with related parties

| | 2023 | 3 | 2022 | |
|-------------------------------------|------------|-------------|------------|-------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Shareholders | 644,603 | 2,633,203 | 1,193,090 | 4,911,952 |
| Key management personnel | 1,064,103 | 4,346,860 | 1,091,907 | 4,495,381 |
| Company under the same shareholders | 25,415,804 | 103,823,559 | 32,245,106 | 132,753,101 |
| | 27,124,510 | 110,803,622 | 34,530,103 | 142,160,434 |
| Interest expense on deposits | 195,086 | 801,803 | 237,174 | 969,330 |

(d) Subordinated debts

| | 2023 | | 2022 | |
|------------------|-----------|------------|------------|------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Shareholders | 8,113,333 | 33,142,965 | 10,142,055 | 41,754,840 |
| | | | | |
| Interest expense | 468,797 | 1,926,756 | 142,055 | 580,579 |

(e) Terms and conditions

Transactions with related parties were made on normal commercial terms and conditions and at market rate.

(f) Key management personnel compensation

| | 2023 | | 2022 | |
|--------------------------|-----------|-----------|-----------|-----------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Short-term benefits | 557,452 | 2,291,128 | 421,011 | 1,720,672 |
| Other long-term benefits | 726,001 | 2,983,864 | 909,196 | 3,715,884 |
| | | | | |
| | 1,283,453 | 5,274,992 | 1,330,207 | 5,436,556 |

35. FINANCIAL RISK MANAGEMENT

The Bank embraces risk management as an integral part of the Bank's business, operations and decision-making process. In ensuring that the Bank achieves optimum returns whilst operating within a sound business environment, the risk management teams are involved at the early stage of the risk-taking process by providing independent inputs, including relevant valuations, credit evaluations, new product assessments and quantification of capital requirements. These inputs enable the business units to assess the risk and reward of their propositions, thus enabling risk to be priced appropriately in relation to the return.

Generally, the objectives of the Bank's risk management activities are to:

- identify the various risk exposures and capital requirements;
- ensure risk-taking activities are consistent with risk policies and the aggregated risk position are within the risk appetite as approved by the Board; and
- create shareholders' value through a sound risk management framework.

| Net financial assets | 91,466,641 | 373,641,230 | 70,185,907 | 288,955,380 |

35.1 Credit risk

Credit risk is the risk of suffering financial loss, should any of the Bank's customers or market counterparties fail to fulfil their contractual obligations to the Bank. Credit risk arises from deposits and placements with the central bank and other banks, loans and advances, investment in debt security, derivatives financial instrument, other financial assets, and credit commitments and financial guarantee contracts. Credit exposure arises principally in lending activities.

(a) Credit risk measurement

Credit risk is managed on a group basis.

For loans and advances and credit commitments, the estimation of credit exposure for risk management purposes requires the use of models, as the exposure varies with changes in market conditions, expected cash flows and the passage of time. The assessment of credit risk of a portfolio of assets entails further estimations as to the likelihood of default occurring, of the associated loss ratios and of default correlations between counterparties. The Bank measures credit risk using Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD) for the purposes of measuring Expected Credit Loss (ECL) under CIFRS 9.

Deposits and placements with the central bank and other banks are considered to be low credit risk. The credit ratings of these assets are monitored for credit deterioration. Measurement for impairment is limited to 12-month expected credit loss. Other financial assets at amortised cost are monitored for its credit rating deterioration, and the measurement of impairment follows a three-stage approach in note 35.1 (c).

Central banks have no historical loss, and with strong capacity to meet obligations in near term, expected credit loss for deposits and placements with central banks are nil.

(b) Risk limit control and mitigation policies

The Bank operates and provides loans and advances to individuals or enterprises within the Kingdom of Cambodia. The Bank manages, limits and controls the concentration of credit risk whenever it is identified.

The Bank employs a range of policies and practices to mitigate credit risk. The most traditional of these is the taking of security in the form of collaterals for loans and advances to customers, which is common practice. The Bank implements guidelines on the acceptability of specific classes of collaterals or credit risk mitigation. The principal collateral types to secure for loans and advances to customers are:

- Mortgages over residential properties (land, building and other properties);
- Cash in the form of fixed deposits or margin deposits, if any.

(c) Impairment (expected credit loss) policies

The measurement of expected credit loss allowance under the CIFRS 9's three-stage approach is to recognise lifetime expected credit loss allowance for financial instruments for which there has been a significant increase in credit risk since initial origination or is credit-impaired as at the reporting date. The financial instrument which has not undergone any significant deterioration in credit risk shall be recognised with 12-month expected credit loss allowance.

Under the three-stage approach, the financial instrument is allocated into three stages based on the relative movement in the credit risk.

- Stage 1 includes financial instruments that neither have a significant increase in credit risk since initial recognition nor credit impaired as at reporting date. For these assets, 12-month expected credit loss allowance are recognised.
- Stage 2 includes financial instruments that have had a significant increase in credit risk since initial recognition but do not have objective evidence of impairment. For these assets, lifetime expected credit loss allowance are recognised.
- Stage 3 includes financial instruments that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit loss allowance are recognised.
- Purchased or originated credit-impaired financial assets are those financial assets that are credit-impaired on initial recognition. Their expected credit loss allowance is always measured on a lifetime basis (Stage 3).

The key judgements and assumptions adopted by the Bank in addressing the requirements of the standard on the measurement of allowances are:

(i) Significant increase in credit risk (SICR)

The assessment of SICR shall be a multifactor and holistic analysis and based on a mixture of quantitative and/or qualitative information. To determine whether the risk of default of a loan/financing has increased significantly since initial recognition, the current risk of default at the reporting date is compared with the risk of default at initial recognition. A borrower is considered to have credit risk increased significantly since initial recognition if any of the following criteria is met:

- Past due 30 days for short-term facilities on its contractual payment; and
- Past due 90 days for long-term facilities on its contractual payment.

(ii) Definition of default and credit impaired

The Bank defines a financial instrument as in default which is also credit-impaired when it meets one of the following criteria:

• Where the principal or interest or both of any of the credit facilities is past due for more than 90 consecutive days or more

and/or in actual default. In the case of revolving facilities (e.g. overdraft facilities), the facility shall be classified as impaired where the outstanding amount has remained in excess of the approved limit for a period of more than 90 days or 3 months for the purpose of ascertaining the period in arrears.

- When an obligor/counterparty has multiple loans with the Bank and cross default obligation applies, an assessment of provision is required under which default of one debt obligation triggers default on another debt obligation (cross default). Where there is no right to set off clause is available, assessment of provision needs to be performed on individual loan level instead of consolidated obligor/counterparty level.
- Write-off/charged-off accounts.

(iii) Measuring (ECL - inputs, assumptions and estimation techniques)

The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. The ECL is assessed and measured on a collective basis and individual basis.

For collective assessment, the ECL allowance is determined by projecting the PD, LGD and EAD for each future month and for the collective segment. The three components are multiplied together to calculate an ECL for each future year, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

For individual assessment, the ECL allowance is determined by comparing the outstanding exposure with the present value of cash flow which is expected to be received from the borrowers.

Probability of Default (PD)

The PD represents the likelihood that a borrower will be unable to meet its financial obligation either over the next 12 months (12-month PD) or over the remaining lifetime (lifetime PD) of the obligation.

The 12-month and lifetime PD represent the expected point-in-time probability of a default over the next 12 months and remaining lifetime of the financial instruments, respectively, based on conditions existing at the reporting date and future economic conditions that affect credit risk.

The PD is derived using historical default rates adjusted for forward-looking information and reflecting current portfolio composition and market data.

For portfolios without sufficient default data, the Bank used market default data. Market default data for the Bank refers to the default percentage of customers issued by Credit Bureau Cambodia.

Exposure at Default (EAD)

EAD is the total amount that the Bank is exposed to at the time the borrower defaults.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

- For amortising products and bullet repayment loans, this is based on the contractual repayments owed by the borrower over a 12-month or remaining maturity.
- For revolving products, the exposure at default is the higher of outstanding balance or applicable limit multiplied with credit conversion factor.

Loss Given Default (LGD)

LGD represents the Bank's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default. LGD is the percentage of loss expected to be made if the default occurs over the remaining expected lifetime of the loan.

For portfolios without sufficient default data, Proxy LGD is used.

The assumptions underlying the ECL calculation are monitored and reviewed periodically. There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

(iv) Forward-looking information incorporated into the ECL models

The calculation of ECL incorporates forward-looking information. The Bank has performed statistical analysis based on historical experience and identified the key economic variables impacting credit risk and expected credit losses for each portfolio. The relationship of these economic variables on the PD, EAD and LGD has been determined by performing statistical regression analysis to understand the impact changes in these variables have had historically on default rates and on the components of PD and LGD. These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Expert judgement has also been applied in this process. Forecasts of these economic variables are sourced from external research house.

For the year ended 31 December 2023, the management has refreshed the latest macroeconomics variables available which were up to 31 December 2023. As a result, the management has adjusted the Bank's probability weighted percentage in the probability weighted forward looking Probability of Default (PD) to give a heavier weight to the worst case scenario and a lighter weight to the best case scenario using reasonable and supportable information.

The Bank applies three economic scenarios to reflect an unbiased probability-weighted range of possible future outcome in estimating ECL:

- Base case: This represents the 'most likely outcome' of future economic conditions which is aligned with information used by the Bank for other purposes such as budgeting and stress testing.
- Best and Worst case: This represents the 'upside' and 'downside' outcome of future economic conditions which are determined by a combination of statistical analysis and expert credit judgement.

Macroeconomic variable assumptions stop

The weightings assigned to each economic scenario as at 31 December 2023 and 31 December 2022 are as follows:

| | Base | Best | Worst |
|--------------------------------|------|------|-------|
| As at 31 December 2023 | % | % | % |
| Scenario probability weighting | 68% | 16% | 16% |

| | Base | Best | Worst |
|--------------------------------|------|------|-------|
| As at 31 December 2022 | % | % | % |
| Scenario probability weighting | 68% | 16% | 16% |

As with any economic forecasts, the projections and likelihoods of occurrence are subject to high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The Bank considers these forecasts to represent its best estimate of the possible outcomes and are appropriately representative of the range of possible scenarios. The scenario weightage, number of scenarios and their attributes are reassessed periodically.

Sensitivity analysis

The Bank has also identified the key economic variables and carried out a sensitivity assessment of ECL for loans, advances and financing in relation to the changes in these key economic variables whilst keeping other variables unchanged. The sensitivity factors used are derived based on expected standard deviation determined for each key economic variable to assess the impact on the ECL of the Bank.

The Bank has performed ECL sensitivity assessment on loans and advances based on the changes in key macroeconomic variables. The sensitivity factors used are assumptions based on parallel shifts in the key variables to project the impact on the ECL of the Bank.

The analysis is based on the three year moving average of consumer price index from 2021 to 2023 in which it resulted in changes of 4.2%.

The table below outlines the effect of ECL on the changes in key variables used while other variables remain constant:

Changes

Consumer price index +/-4.2%

| | 2023 | | 20 | 22 |
|--|---------|-----------|-----------|-----------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Total decrease in ECL on the positive changes in key variables | 626,091 | 2,573,235 | 1,043,904 | 4,266,436 |

| | 2023 | | 20 | 22 |
|--|---------|-----------|---------|-----------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Total increase in ECL on the negative changes in key variables | 475,558 | 1,954,543 | 906,164 | 3,703,492 |

(v) Grouping of exposure for ECL measured on collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

In performing this grouping, there must be sufficient information for the group to be statistically credible. Where sufficient information is not available internally, the Bank has considered benchmarking internal/external supplementary data to use for modelling purposes.

The appropriateness of groupings is monitored and reviewed on a periodic basis by the Credit Risk.

(vi) Write off policy

Write-off is usually taken when relevant recovery actions have been exhausted or further recovery is not economically feasible or justifiable. When a loan or debt instrument is deemed uncollectible, it is written off against the related allowance for impairment. Such loans are either written off in full or partially after taking into consideration the realisable value of collateral (if any) and when in the judgement of the management, there is no prospect of recovery. All write-offs must be approved by the Board or its delegated authorities.

(vii) Modification of loans and advances

The Bank sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Bank assesses whether or not the new terms are substantially different to the original terms. The Bank does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms are introduced, such as a profit share/equity-based return that substantially affects the risk profile of the loan.
- · Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- · Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

The risk of default of such loans after modification is assessed at the reporting date and compared with the risk under the original terms at initial recognition, when the modification is not substantial and so does not result in derecognition of the original loans. The Bank monitors the subsequent performance of modified assets.

The Bank may determine that the credit risk has significantly improved after restructuring, so that the assets are moved from Stage 3 or Stage 2 (Lifetime ECL) to Stage 1 (12-month ECL). This is only the case for assets which have performed in accordance with the new terms for six consecutive months or more.

(viii) Off-balance sheet exposures

Off-balance sheet exposures are exposures such as trade facilities and undrawn commitments. The Bank applied internal Cash Conversion Factor (CCF) to estimate the EAD of off-balance sheet items. For operational simplification, the Bank assumes CCF for the off-balance sheet exposures as follows:

- 40% CCF is assumed for unused portion of loans and advances to customers
- 50% CCF is assumed for unused portion of overdrafts; and
- 100% CCF is assumed for undrawn trust receipts and financial guarantees

(d) Maximum exposure to credit risk before collateral held or other credit enhancements

The maximum exposure to credit risk for financial assets recognised in the statements of financial position is their carrying amounts. For contingent liabilities, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the obligations of the instruments issued are called upon. For credit commitments, the maximum exposure to credit risk is the full amount of the undrawn credit facilities granted to customers. The table below shows the maximum exposure to credit risk for the Bank on financial instruments subject to impairment.

| | 202 | 23 | 202 | 22 |
|---|-------------|---------------|-------------|---------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Credit risk exposure relating to on-balance sheet assets: | | | | |
| Deposits and placements with other banks | 261,447,442 | 1,068,012,801 | 109,654,930 | 451,449,347 |
| Loans and advances at amortised cost | 711,655,018 | 2,907,110,749 | 764,864,775 | 3,148,948,279 |
| Investment in debt security | 5,275,000 | 21,548,375 | 5,272,740 | 21,707,871 |
| Derivative financial instruments | 105,895 | 432,581 | 1,335,113 | 5,496,660 |
| Other financial assets | 2,682,364 | 10,957,457 | 2,002,084 | 8,242,580 |
| | 981,165,719 | 4,008,621,763 | 883,129,642 | 3,635,844,737 |
| Credit risk exposure relating to off-balance sheet items: | | | | |
| Unused portion of overdrafts | 3,124,971 | 12,765,507 | 12,105,791 | 49,839,542 |
| Performance guarantees | 7,617,685 | 31,118,243 | 8,855,984 | 36,460,086 |
| Unused portion of loans and advances to customers | 432,983 | 1,768,736 | 1,599,223 | 6,584,001 |
| | 11,175,639 | 45,652,486 | 22,560,998 | 92,883,629 |
| Total maximum credit risk exposure that are subject to impairment | 992,341,358 | 4,053,714,449 | 905,690,640 | 3,728,728,366 |
| Allowance for impairment losses on loans and advances | (7,041,467) | (28,764,393) | (5,779,258) | (23,793,205) |
| Allowance for impairment losses on deposits and placements with other banks | (2,683,893) | (10,963,703) | (1,101,648) | (4,535,485) |
| Allowance for impairment losses on commitments | (145,644) | (594,956) | (24,388) | (100,405) |
| | (9,871,004) | (40,323,052) | (6,905,294) | (28,429,095) |
| Total net credit exposure | 982,470,354 | 4,013,391,397 | 898,785,346 | 3,700,299,271 |

The above table represents a worst-case scenario of credit risk exposure to the Bank, since collateral held and/or other credit enhancement attached were not taken into account. For on-balance sheet assets, the exposures set out above are based on gross carrying amounts. As shown above, 73% (2022: 86%) of total maximum exposure is derived from loans and advances. Management is confident of its ability to continue to control and sustain minimal exposure on credit risk resulting from the Bank's loans and advances due to the followings:

- Almost all loans and advances are collateralised and loan to collateral value is 80%.
- The Bank has a proper credit evaluation process in place for granting of loans and advances to customers.

(e) Credit quality of financial assets

The Bank assesses credit quality of loans, advances and financing using internal rating techniques tailored to the various categories of products and counterparties. The Bank uses assumptions of days past due (DPD) as staging criteria.

Credit quality description is summarised as follows:

| Credit quality | Description |
|-------------------------|--|
| Standard monitoring | Obligors in this category exhibit strong capacity to meet financial commitments. |
| | The Bank monitors obligors in this category by delinquency status. Obligors included in standard monitoring are: those less than 15 days past due on its contractual payments for short-term facilities those less than 30 days past due on its contractual payments for long-term facilities |
| Special monitoring | Obligors in this category have a fairly acceptable capacity to meet financial commitments. |
| | The Bank monitors obligors in this category by delinquency status. Obligors included in special monitoring are: those that are from 15 days to 30 days past due on its contractual payments for short-term facilities those that are from 30 days to 89 days past due on its contractual payments for long-term facilities |
| Default/Credit impaired | Obligors assessed to be impaired. |

The credit quality of financial instruments other than loans, advances and financing are determined based on the ratings of counterparties as defined equivalent ratings of other international rating agencies as defined below:

| Credit quality | Description |
|----------------------|--|
| Sovereign | Refers to financial assets issued by the central bank/government or guarantee by the central bank/government. |
| Investment grade | Refers to the credit quality of the financial assets that the issuer is able to meet payment obligation and exposure bondholder to low credit risk of default. |
| Non-investment grade | Refers to low credit quality of the financial assets that are highly exposed to default risk. |
| No rating | Refers to financial assets which are currently not assigned with ratings due to unavailability of ratings models. |
| Credit impaired | Refers to the financial assets that are being impaired. |

The following table shows an analysis of the credit exposure by stages, together with the ECL allowance provision:

35.2 MARKET RISK

The Bank takes exposure to market risk, which is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Market risk arises from open positions in interest rates, currency and equity products, all of which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as interest rates, credit spreads, foreign exchange rates and equity prices.

(i) Foreign exchange risk

The Bank operates in Cambodia and transacts in a few currencies, and is exposed to currency risks, mainly with respect to Khmer Riel.

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Bank's functional currency.

Management monitors foreign exchange risk against the Bank's functional currency. However, the Bank does not hedge its foreign exchange risk exposure arising from future commercial transactions and recognised assets and liabilities using forward contracts.

The Bank's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines.

The table below summarises the Bank's exposure to foreign currency exchange rate risk. Included in the table are the Bank's financial instruments at their gross carrying amounts by currency in US\$ equivalent.

Sensitivity analysis

The Bank takes on exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on their financial position and cash flows. The table below sets out the principal structure of foreign exchange exposures of the Bank:

| | 2023 | 2022 |
|-----------------------|-------------|---------------|
| | KHR'000 | KHR'000 |
| Asset/(Liability) | | |
| Khmer Riel (KHR) | 87,111,265 | (58,819,652) |
| Thai Baht (THB) | 74,619 | 74,637 |
| | 87,185,884 | (58,745,015) |
| In KHR'000 equivalent | 356,154,336 | (241,853,227) |

As shown in the table above, the Bank is primarily exposed to changes in US\$/KHR exchange rates. The sensitivity of profit or loss to changes in exchange rates arises mainly from KHR denominated financial instruments.

The analysis below is based on the assumption that the KHR exchange rate has increased or decreased by 1% which is based on the 3-year moving average of the exchange rate from 2021 to 2023.

An analysis of the exposures to assess the impact of 1% change in the foreign currency exchange rates to the profit after tax are as follows:

| | 2023 | | 2022 | |
|------------------|-----------|-------------|-----------|-------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Decrease -1% | | | | |
| Khmer Riel (KHR) | (671,863) | (2,744,560) | (627,449) | (2,564,384) |
| | (671,863) | (2,744,560) | (627,449) | (2,564,384) |

| | 2023 | | 2022 | |
|------------------|---------|-----------|---------|-----------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Decrease +1% | | | | |
| Khmer Riel (KHR) | 682,389 | 2,787,559 | 614,342 | 2,510,816 |
| | | | | |
| | 682,389 | 2,787,559 | 614,342 | 2,510,816 |

(ii) Price risk

The Bank is not exposed to a securities price risk because it does not have any investment held and classified on the statement of financial position at fair value.

(iii) Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. Interest margins may increase as a result of changes but may reduce losses in the event that unexpected movements arise.

The Bank's main interest rate risk arises from borrowings and subordinated debt which are at fixed rates. The Bank does not have fair value interest rate risk as the interest rates of financial instruments measured at amortised cost are similar to prevailing market rates.

The management of the Bank at this stage does not have a policy to set limits on the level of mismatch of interest rate repricing that may be undertaken; however, the management regularly monitors the mismatch. In addition, the management regularly analyses and foresees the expected changes in the interest rates and manages cash flow interest rate risk by assessing its impacts and developing actions to respond to the interest rate risk.

The table below summarises the Bank's exposure to interest rate risks. It includes the Bank's financial instruments at carrying amounts, categorised by the earlier of contractual repricing or maturity dates.

| | Up to 1 month US\$ | 1 to 3 months US\$ |

Sensitivity analysis

The interest rate sensitivity shows the impact on profit after tax and equity of financial assets and financial liabilities bearing floating interest rates and fixed rate financial assets and financial liabilities carried at fair value.

The Bank's interest-bearing financial assets and financial liabilities are contracted under the fixed interest rate. Therefore, the Bank has no exposure to the risk of changes in interest rate in the future.

| Total US\$ | Non-interest rate sensitive US\$ | Over 5 years US\$ | 1 to 5 years US\$ | 3 to 12 months US\$ |
|---------------|--|----------------------|----------------------|------------------------|

35.3 Liquidity risk

Liquidity risk is the risk that the Bank is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence of this may be the failure to meet obligations to repay depositors and fulfil commitments to lend.

(a) Liquidity risk management process

The Bank's management monitors balance sheet liquidity and manages the concentration and profile of debt maturities. Monitoring and reporting take the form of the daily cash position and project for the next day, week and month respectively, as these are key periods for liquidity management. The management monitors the movement of the main depositors and projection of their withdrawals.

(b) Funding approach

The Bank's main sources of liquidities arise from shareholder's paid-up capital, borrowings, subordinated debts and deposits from banks and customers. The sources of liquidity are regularly reviewed daily through management's review of maturity of term deposits and key depositors.

(c) Non-derivative cash flows

The table below presents the cash flows payable by the Bank under non-derivative financial liabilities based on remaining contractual maturities at the balance sheet date. The amounts disclosed in the table are the contractual undiscounted cash flows, whereas the Bank manages the inherent liquidity risk based on expected undiscounted cash flows.

| Total US\$ | Over 5 years US\$ | 1 to 5 years US\$ | 3 to 12 months US\$ | |

35.4 Fair value of financial assets and liabilities

(a) Financial instruments measured at fair value

The Bank did not have financial instruments measured at fair value.

(b) Financial instruments not measured at fair value

As at the balance sheet date, the fair values of financial instruments of the Bank approximate their carrying amounts.

The estimated fair values are based on the following methodologies and assumptions:

i. Deposits and placements with the central bank and other banks

The carrying amounts of deposits and placements with the central bank and other banks approximate their fair values, since these accounts consist mostly of current, savings and short-term deposits.

ii. Loans and advances to customers

For fixed rate loans with a remaining period to maturity of less than one year, the carrying amounts are generally reasonable estimates of their fair values.

For fixed rate loans with remaining period to maturity of one year and above, fair values are estimated by discounting the estimated future cash flows using a current lending rate as the prevailing market rates of loans with similar credit risks and maturities have been assessed as insignificantly different to the contractual lending rates. As a result, the fair value of non-current loans and advances to customers might approximate their carrying value as at reporting date.

iii. Deposits from banks and customers

The fair value of deposits from banks and customers with maturities of less than one year approximate their carrying amount due to the relatively short maturity of these instruments. The fair value of deposits from banks and customers with remaining maturities of more than one year are expected to approximate their carrying amount due to the Bank offering similar interest rate of the instrument with similar maturities and terms.

The estimated fair value of deposits with no stated maturities, which includes non-interest bearing deposits, deposits payable on demand is the amount payable at the reporting date.

iv. Other financial assets and other financial liabilities

The carrying amounts of other financial assets and other financial liabilities are assumed to approximate their fair values as these items are not materially sensitive to the shift in market interest rates.

v. Investment in debt security

The estimated fair value of debt securities is generally based on quoted and observable market prices at the date of statements of financial position. They are not actively traded. The estimated fair values of debt securities approximate their carrying values based on estimated future cash flows using prevailing market rates.

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

vi. Borrowings and subordinated debts

Borrowings and subordinated debts are not quoted in the active market and their fair value approximates their carrying amount because the borrowing rates are similar to the prevailing market rates of the borrowing with similar term and maturities.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Bank is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

35.5 Capital management

The Bank's objectives when managing capital, which is a broader concept than the 'equity' shown on the balance sheet, are:

- to comply with the capital requirement set by the central bank;
- to safeguard the Bank's ability to continue as a going concern so that it can continue to provide a return for shareholders and benefits for other stakeholders; and
- to maintain a strong capital base to support business development.

The central bank requires all commercial banks to i) hold the minimum capital requirement, ii) maintain the Bank's net worth at least equal to the minimum capital and iii) comply with solvency and liquidity ratios.

The table below summarises the composition of regulatory capital:

| | 2023 | | 2022 | |
|--------------------------------|-------------|--------------|-------------|--------------|
| | US\$ | KHR'000 | US\$ | KHR'000 |
| Tier 1 capital | | | | |
| Share capital | 135,000,000 | 551,475,000 | 135,000,000 | 555,795,000 |
| Retained earnings | 44,662,639 | 183,333,746 | 18,220,927 | 74,577,591 |
| Less: Intangible assets | (4,112,201) | (16,798,341) | (4,671,371) | (19,232,034) |
| Less: Loans to related parties | (2,654,384) | (10,843,159) | (2,896,959) | (4,086,003) |
| | 172,896,054 | 707,167,246 | 145,652,597 | 607,054,554 |
| Tier 2 complementary capital | | | | |
| General provision | 16,435,172 | 66,542,726 | 9,681,095 | 40,904,593 |
| Subordinated debts | 8,000,000 | 32,680,000 | 10,000,000 | 41,754,840 |
| | 24,435,172 | 99,222,726 | 19,681,095 | 82,659,433 |
| | 197,331,226 | 806,389,972 | 165,333,692 | 689,713,987 |

CHIP MONG COMMERCIAL BANK PLC. LOCATION

HEAD OFFICE

Chip Mong Bak Touk Center building 1st-3rd-4th floors, Czech Republic Blvd (St. 169) Corner St. 167, Sangkat Veal Vong, Khan 7 Makara, Phnom Penh, Cambodia
